A MESSAGE FROM YOUR COUNTY ASSESSOR

Kittitas County has a population of 37,400 and covers a 2,315 square mile area, or approximately 1,481,600 acres, including 212,005 acres assessed as forest land. Over sixty-four percent of our county is exempt from taxation as Federal, State, County, City, etc. property.

Our office maintains information on over 31,518 taxable real property parcels, 2,123 personal property parcels, 3,218 exempt parcels, 336 Department of Wildlife parcels and 899 personal and real property utility parcels. There were 2,302 parcels on which \$241,340,763 of new construction value was added in 2006.

We are required to keep numerous records in addition to thousands of property appraisal reports. The process of converting historical paper files to electronic images that was started in 2005 is continuing this year. A detailed series of electronic maps showing all properties within the county are maintained along with a set of aerial photos. Each time property is sold or divided, or a new plat filed, the transaction is shown in office records. Our assessment roll of the county lists ownership and address, description, parcel number, tax code area, use code, revaluation year and the valuation of land and buildings for all taxable property along with digital photos of buildings.

This booklet has been prepared for your information and better understanding of your Kittitas County Assessor's Office. The 2006 assessed values of our taxing districts, their levy rates and the amount of taxes our districts are to collect in 2007, statistics for land assessed on basis of current use and much other information, including the Senior Citizen Property Tax Exemption, can be found in this booklet.

It is the responsibility of the assessor to determine the value of all real and personal property in Kittitas County and to establish an equitable basis for the levies imposed by the various taxing districts and additional special levies for which the people have voted.

I would like to thank Iris Rominger, retired past assessor, for all of her dedication to this office. She left the office in good order and with a staff trained to serve the public as their priority.

One of my goals as a new assessor is to maintain the high level of public service to the taxpayers of Kittitas County. As a public servant, I am accountable to you and represent your interests. I hope you find the information provided in this report helpful and I welcome your inquiries regarding any matter concerning this office.

Respectfully,

MARSHA WEYAND
Your Kittitas County Assessor

State assessed taxable real and personal property	<u>\$157,528,498</u>
TOTAL Taxable Value	\$3,936,776,085

State law requires assessors to value all property for tax purposes at 100 percent of its true and fair market value in money, according to the highest and best use of the property. *The Assessor does not set budgets for taxing districts. The Assessor does not bill or collect taxes.* Budgets are established by the taxing districts and taxes are billed and collected by the County Treasurer.

Once budgets have been established and submitted by the taxing districts, the role of the Assessor is to calculate the tax rates necessary to generate the revenue needed to meet the budgetary requirements of the districts. The Assessor must adhere to constitutional and statutory tax limits and levy amounts approved by voters.

The assessed value of your property multiplied by the tax rate per thousand dollars of assessed value determines the amount of tax you will pay as your equitable share of the total tax burden.

The amount of property tax you pay is determined by the cost of state and local governments. This includes the operating costs of local schools, city and county government as well as the expense of maintaining other taxing entities such as library, fire, water, and sewer districts. A portion of your property tax dollar goes to pay off bonds for capital improvements.

The state school levy has the highest statutory rate of all taxing districts. The rate is \$3.60/Equalized Market Value per \$1,000 of assessed valuation. With the passage of Initiative 747 in November of 2001 the state school levy is limited to an annual increase of 1% until it reaches the \$3.60 limit.

There are two principle limitations that directly affect how high your property tax can go:

One Percent Constitutional Limit

The Washington Constitution limits the regular (non-voted) property tax to 1% (\$10 per \$1,000 of assessed valuation). This limit is subject to statutory reductions which make the actual rate \$5.90 per \$1,000 of assessed valuation. Voters may authorize additional levies that are added to this figure.

Levy Limit

The Levy Limit applies to a taxing district's budget and not to increases in assessed value or tax bill of individual properties. Initiative 747 passed in 2001 restricts individual taxing districts whose population is below 10,000 from collecting more than a one percent increase in their highest lawful regular, non-voted, levy amount since 1985. The governing board of the district must pass a resolution authorizing this increase. Taxing districts with populations of 10,000 or more are limited to an increase in their highest lawful levy since 1985, to the inflation rate or one percent, whichever is less, with the passage of a resolution. To increase above that amount, up to one percent, the district must pass a second resolution showing substantial need for additional funds.

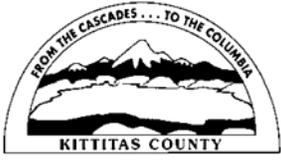

New construction, annexations, and excess levies approved by the voters are not included in the levy limit. Therefore, a taxing district's actual revenue increase may be greater than one percent.

Note:

These two limits apply to the district as a whole. The limits are **not applied to individual parcels of property.**

**HISTORICAL VALUATION AND TAX COMPARISON
