THOSE PRESENT: Alan Crankovich, Perry Huston, Joy Potter, Patti Johnson, Kelly Carlson

GUESTS PRESENT: Chuck Cruse

ACCESS PERMITS: Joy stated that she has a possible solution to people wanting access to parcels that have yet to be created. She stated that they will be treated like a short plat and will be approved with conditions set forth. This way will not hold up the applicant in any way. She also wanted to state that the access requirements could change as the development changes.

Chuck Cruse was present to explain his application that will affect the City of Kittitas' UGA.

BOARD DIRECTION: BOCC approved the process that Joy had come up with and directed her to move forward with it.

WADKINS DRAIN FIELD: Patti requested an update of what came of the meeting with Jack Wadkins and Commissioner Crankovich. Commissioner Crankovich stated that Mr. Wadkins was simply looking for some direction on what to do with his drain field situation. Joy stated that it would economically unfeasible for him to hook up to the Roslyn system. If he puts a drain field in on his existing property it will hinder his ability to develop in the future, but isn't the county's problem.

Commissioner Huston stated that Mr. Wadkins has three options: 1) Connect to Roslyn Sewer, 2) Connect to Cle Elum Sewer, or 3) Install drain field on his property.

Commissioner Huston stated that the City of Cle Elum may allow him to connect to their sewer if a declaration of emergency/public safety is done.

BOARD DIRECTION: Commissioners stated there is nothing for Public Works to do at this time. Commissioner Huston stated the County does have some level of responsibility in this issue.
SUNCADIA ENTRANCE: Patti stated that Suncadia is wanting to the County to agree to a maintenance agreement for the entrance roundabout. She stated that the agreement they submitted has a lot of leeway and that she has started to rework the document and will be consulting with Jim Hurson on it.

BOARD DIRECTION: No Board Direction

WINSTON BRIDGE: Patti was requesting an update on the Winston Bridge issue. Commissioner Huston brought Patti up to speed on where we are at with Winston Bridge.

OFFICE SPACE ANALYSIS: Commissioner Crankovich is requesting that we do an office space analysis for the upper county. There has been talk that in the future we may need permit techs in the upper county to handle the growth. Patti will look into it.

BOARD CONCERNS/ISSUES: None

LAKE CABINS ROAD: Commissioner Crankovich stated that he would like Public Works to flag the 25 Mph speed signs in an attempt to slow the traffic down. He also requested a key to the upper county shop so he could put the radar trailer out on a weekend.

BOARD DIRECTION: Commissioner Crankovich asked for the 25mph signs flagged.

SO CLE ELUM BRIDGE: Patti stated that asbestos conduits had been found on the So. Cle elum bridge during construction. At this time they have stockpiled it next to the bridge which is near Cle elums water supply. The asbestos is contained and should be cleaned up this morning. Patti stated that due to this asbestos “find” a change order will need to be done for the removal and disposal.

BOARD DIRECTION: BOCC approved Change Order and directed Patti to bring it to the July 19 Agenda.

Adjourned at 2:20 p.m. Patti Johnson
Interim Director
Public Works
