REPORT  HOPESOURCE – AUDIT REPORT  COMMISSIONERS

Susan Grindle, Executive Director of HopeSource reported that there was a 2004 Independent Audit Report was performed by Aiken & Sanders, Inc. PS and for the first time in several years they were given an Unqualified Status with no material weaknesses, no reportable conditions and no compliance issues in the financial or program areas. She expressed their appreciation to the Board of County Commissioners for their support as they rebuilt themselves into an organization that strives constantly for excellence in its programs and processes.

UPDATE  COURTHOUSE ROOF UPDATE  MAINTENANCE

James Hurson, Chief Civil Deputy Prosecutor felt the KCDA process (as previously explained by Tom Swenson, Facilities Maintenance Director) was good for school districts but was not allowed by the legislature and did not apply to the County. He said they could retain the company Weatherproofing Technologies for consulting services which would not require a public bid process. Chairman Huston said he wanted to accept bid proposals and award a bid by the end of August.

Chairman Huston directed staff to prepare a contract for consulting services with Weatherproofing Technologies and to prepare a bid notice and bid packets for the Boards consideration at a special meeting in the near future. Commissioner Crankovich seconded. Motion carried 3-0.

CLOSED RECORD HEARING GAME FARM CLUSTER (P-05-07) CDS

Jan Sharar, Community Development Services Staff Planner reviewed the Game Farm Cluster Preliminary Plat. She said the proposal was for a division of approximately 74.53 acres into 27 building lots at approximately 1.00 acre each in size and one residual lot of approximately 46 acres in size. The property is located north of Vantage Highway, south of Game Farm Road, west of Naneum Road and east of Wilson Creek Road, with two access points proposed off of Game Farm Road. She said the zoning is currently Agriculture 3 and was recently rezoned in 2004 from Agriculture 20. She said the application was allowable under the provisions of KCC 17.65 (Cluster subdivision) and is not located within a regulated critical area. The Planning Commission held an open record hearing and voted to forward with a recommendation to approve in a 4-1 vote with 2 members absent. Commissioner Bowen explained the request fit within the County Code and statues. He said he would support the recommendation, but had mixed emotions, and expressed his appreciation for agriculture of what we currently have.

Chairman Huston explained that clustering was not a new concept and reviewed Planned Unit Developments. He said the trade off is the open space in the remaining lands. He said the request was in compliance and the concept of clustering was embraced by the Conference of Governments. He said once a public benefit rating system was in place, it would speak to the amount of time that the residuals would remain in effect.

Commissioner Crankovich felt he understood the comments and concerns made by the citizens, but the request met the requirements and he would support the recommendation.

Chairman Huston moved to approve the Game Farm Cluster preliminary plat request and to direct staff to prepare the enabling documents for the Boards consideration on August 2, 2005 at 2:00 p.m. Commissioner Crankovich seconded. Motion carried 3-0.

REPORT YAKIMA RIVER BASIN WATERSHED PLAN CDS

Darryl Piercy, Director of Community Development Services explained that the draft Watershed Management Plan for the Yakima River Basin was released in January 2003 for review and comment. The plan was a joint effort between Kittitas, Yakima and Benton counties. On May 17, 2005 the Board held a public hearing to consider options regarding the plan and
they directed staff to work with the Department of Ecology to develop language that would permit Kittitas County to “opt out” of the current draft plan allowing the remainder of the planning unit to move forward while enabling the County to develop a Watershed Plan that is exclusive to WIRA 39 and Kittitas County.

Commissioner Bowen appreciated Mr. Piercy’s time he put forth in reviewing the documents. Commissioner Crankovich felt Mr. Piercy’s guidance helped give a clear focus to move forward with a process. Chairman Huston felt the Salmon Recovery Board may be used as a more global forum for further discussion. There were no objections to Chairman Huston communicating to Mr. Ward to put the recovery board together again for a forum.

Chairman Huston moved to direct staff to prepare a Resolution for the Board’s consideration for review during the July 25, 2005 1:30 p.m. study session with the Community Development Services department and then distribute the draft form to the Department of Ecology, Yakima and Benton counties, and to place it on the Commissioners Agenda at 2:00 p.m. on August 2, 2005 for possible adoption. Commissioner Bowen seconded. Motion carried 3-0.
