STUDY SESSION MINUTES
April 24, 2006

THOSE PRESENT: Alan Crankovich, Matt Anderson (HR), Ryan Roberts (DPW), Randy Carbary (DPW), Scott Bradshaw, (DPW), Kelly Carlson (DPW)

GUESTS PRESENT: None

SEASONAL ENG. TECH: Director Bradshaw wanted to clarify a couple of issues on this position. He asked the BOCC if this position was to be for one year only or were we to put into our org chart.

Board Direction: Commissioner Crankovich stated that this position would be for this year only and preferred we come back yearly for approval to hire for this position.

DEVELOPMENT IMPACTS: Randy Carbary (DPW) stated that he has a lot of plat applications in areas of concern he would like to discuss. The first being off of FS3350 Road, most of the development has been to the north but now the south portion is developing into hundreds of lots and the intersection will definitely become an issue. Commissioner Crankovich stated that he has reminded people that just because a road is brought up to county road standards it does not mean the county will take it on system. Darryl Piercy stated that the SEPA process may be used to see what the cumulative impacts will be from these lots, and tie the development to a service standard. He stated that a traffic analysis may need to be required on a preliminary plat in order for the county to make any conditions. There was further discussion on what the Traffic analysis would entail.

Road Certifications – Randy stated that it needs to be identified as to what is required of a compaction test. He stated that he is getting tests that are not adequate but there is no policy on this. He stated that Passmore Road is an example, normally a nuc gauge is used to obtain compaction but the developer on this one used heavy trucks.
Board Direction: BOCC directed staff to put Road certifications on the next study session to discuss a possible policy on this.

PASCOE ROAD: Commissioner Crankovich requested a traffic count on the top of Pascoe Road be done.

Meeting adjourned at 2:39 p.m.

Scott W. Bradshaw, P.E.
Director of Public Works
