BOCC/PLANNING COMMISSION JOINT MEETING - DISCUSS CURRENT STATUS AND NEXT STEPS FOR PREDICTIVE MAPPING IN THE COUNTY

CDS Director Dan Carlson provided an introduction and background for the discussion on the current status and next steps for predictive mapping in the county. This tool will help in answering questions and creating visual scenarios for future planning. The next periodic update is due in 2026. Planning Commissioners presented ideas and concerns regarding the predictive mapping and growth of Kittitas County to the Board of County Commissioners. The goal is to come up with a work program for what this project needs to look like and have a collaborative process, in terms of what we do next, between the Planning Commission and the Board of County Commissioners. Staff will put together a timeline on developing the visualization maps and tools and bring it back to the BoCC.
