BOARD OF COUNTY COMMISSIONERS
COUNTY OF KITTITAS
STATE OF WASHINGTON

ORDINANCE NO 2010-03
ORDINANCE ADOPTING THE 2009 BUILDING CODES.

WHEREAS, the health and safety of the people of Kittitas County is of great concern to the Board of Kittitas County Commissioners, and

WHEREAS, in November of 2009, the Washington State Building Code Council completed adoption of the 2009 International Building Code, the 2009 International Residential Code, the 2009 International Fire Code, the 2009 International Mechanical Code published by the International Code Council and the 2009 Uniform Plumbing Code published by the International Association of Plumbing and Mechanical Officials; and

WHEREAS, the aforementioned building codes and amendments are mandated by the State to become effective July 1, 2010; and

WHEREAS, a copy of each uniform code proposed for adoption by reference was filed with the Kittitas County Auditor at least 10 days before the potential adoption; and

WHEREAS, 10-days’ notice was given before the public hearing; and

WHEREAS, a public hearing was held on June 1, 2010 to consider the adoption of State and International Building Codes, including the adoption of the 2009 International Wildland-Urban Interface Code and the 2009 International Property Maintenance Code; and

WHEREAS, the public hearing was continued on June 15, 2010; and

Gregory L. Zempel
Kittitas County Prosecuting Attorney
Kittitas County Courthouse - Room 213
Ellensburg, WA 98926
(509) 962-7520
WHEREAS, at said continued public hearing on June 15, 2010 the Board of County Commissioners adopted the aforementioned building codes; and

NOW, THEREFORE BE IT RESOLVED, that the Board of County Commissioners, after due deliberation and in the best interest of the public, does hereby approve the amendments to Title 14 of Kittitas County Code as rewritten below, the red-line version to which is shown on Attachment A.

Chapter 14.04
BUILDING CODE

Sections

14.04.010 Adoption of referenced codes.
14.04.020 Design requirements.
14.04.030 Building relocation - Applicant.
14.04.040 Mobile, manufactured, designated manufactured and modular homes.
14.04.050 Dry cabins.
14.04.060 Fees.
14.04.070 Permits.

14.04.010 Adoption of referenced codes.
Kittitas County hereby adopts the following codes, as amended by the Washington State Building Code Council pursuant to RCW 19.27 for the purpose of establishing rules and regulations for the construction, alteration, removal, demolition, equipment, use and occupancy, location and maintenance of buildings and structures.

1. The International Building Code (IBC), 2009 Edition, published by the International Code Council as adopted and amended by the State of Washington in Chapter 51-50 WAC; with the following adopted appendices and amendments:
   a. Appendices
      i. Appendix C: Agricultural Buildings
      ii. Appendix H: Signs
      iii. Appendix I: Patio Covers
   b. Amendments
      i. Section 105.2 Work Exempt from Building Permit.
      1. One story detached accessory structures used as tool and storage sheds, playhouses and similar uses, provided the floor area does not exceed 120 square feet and is not used as habitable space. All accessory structures must meet all zoning and building setbacks, and must comply with the requirements of KCC Title 17A (Critical Areas) and KCC Chapter 14.08 (Flood Damage Prevention).
      ii. Section 105.3.2 Expiration of Application
      1. If, after a plan review has been initiated, an application for building permit requires corrections, a letter will be sent notifying the applicant of those items necessary to complete the review of the permit.

Gregory L. Zemple  
Kittitas County Prosecuting Attorney  
Kittitas County Courthouse - Room 213  
Ellensburg, WA 98926  
(509) 962-7520
application and that the application will expire 180 days from the date of notification if the corrections are not submitted. If expired, the application becomes null and void and the deposit is forfeited.

2. After a plan review has been completed, a letter will be sent notifying the applicant that the permit is ready for issuance and that if not purchased 180 days from the date of notification, the application will expire. The Building Official is authorized to grant one extension, not to exceed 365 days. The extension shall be requested in writing, prior to permit expiration, and justifiable cause shall be demonstrated. Fees for extension shall be established by resolution. If expired, the application becomes null and void, the deposit is forfeited, and all submittal documents are returned to the applicant. If a completed application expires and the deposit is less than the plan review fee, the applicant is responsible for any outstanding balance and an invoice will be sent to the property owner of record.

2. The International Residential Code (IRC), 2009 Edition, published by the International Code Council as adopted and amended by the State of Washington in Chapter 51-51 WAC; with the following adopted amendments:
   a. Amendments
      i. Section R105.2 Work Exempt from Building Permit
         1. One-story detached accessory structures used as tool and storage shed, playhouses and similar uses, provided the floor area does not exceed 200 square feet and is not used for habitable space. All accessory structures must meet all zoning and building setbacks and must comply with the requirements of KCC Title 17A (Critical Areas) and KCC Chapter 14.06 (Flood Damage Prevention).
      ii. Section R105.3.2 Expiration of Application
         1. If, after a plan review has been initiated, an application for building permit requires corrections, a letter will be sent notifying the applicant of those items necessary to complete the review of the application and that the application will expire 180 days from the date of notification if the corrections are not submitted. If expired, the application becomes null and void and the deposit is forfeited.
         2. After a plan review has been completed, a letter will be sent notifying the applicant that the permit is ready for issuance and that if not purchased 180 days from the date of notification, the application will expire. The Building Official is authorized to grant one extension, not to exceed 365 days. The extension shall be requested in writing, prior to permit expiration, and justifiable cause shall be demonstrated. Fees for extension shall be established by resolution. If expired, the application becomes null and void, the deposit is forfeited, and all submittal documents are returned to the applicant. If a completed application expires and the deposit is less than the plan review fee, the applicant is responsible for any outstanding balance and an invoice will be sent.

4. The International Fire Code (IFC), 2009 Edition, published by the International Code Council as adopted and amended by the State of Washington in Chapter 51-54 WAC; including those standards of the National Fire Protection Association specifically referenced in the International Fire Code: PROVIDED, that, notwithstanding any wording in this code, participants in religious ceremonies shall not be precluded from carrying hand-held candles. The following appendices and amendments are specifically adopted:
   a. Appendices
      i. Appendix B: Fire Flow for Buildings
      ii. Appendix C: Fire Hydrant Locations and Distribution
      iii. Appendix D: Fire Apparatus Access Roads
      iv. Appendix E: Hazard Categories
      v. Appendix F: Hazard Ranking
      vi. Appendix G: Cryogenic Fluids-Weight and Volume Equivalents
      *In case of conflict among the codes enumerated in subsections 1, 2, 3, and 4 of this section, the first named code shall govern over those following.*
   b. Amendments
      i. Chapter 45: Referenced Standards
         1. NFPA standard reference numbers as follows:
            3. NFPA13R-07: "Installation of Sprinkler Systems in Residential Occupancies up to and including Four Stories in Height" to replace prior edition NFPA13R-02.

5. The Uniform Plumbing Code (UPC), 2009 Edition, published by the International Association of Plumbing and Mechanical Officials as adopted and amended by the State of Washington in Chapter 51-56 WAC and Chapter 51-57 WAC.
8. The International Wildland-Urban Interface Code (IWUIC), 2009 Edition, as published by the International Code Council; with the following adopted appendices and amendments:
   a. Appendices
      i. Appendix A: General Requirements
      ii. Appendix B: Vegetation Management Plan
   b. Amendments
      i. Section 502.1 General. The fire hazard severity of building sites for all buildings hereafter constructed, modified or relocated into wildland-urban interface areas shall be established in accordance with table 502.1
         1. Critical fire weather frequency, in days per annum, for Kittitas County shall be determined by historical area data from the Northwest Interagency Coordination Center.
      ii. Section 504. 5 Exterior Walls
         1. Exterior walls of buildings or structures shall be constructed with materials approved for a minimum of 1-hour fire resistance rated construction with ignition resistant siding or constructed with approved non-combustible materials.
      iii. Section 505.5 Exterior Walls

Gregory L. Zempel
Kittitas County Prosecuting Attorney
Kittitas County Courthouse - Room 213
Ellensburg, WA 98926
(509) 962-7520
1. Exterior walls of buildings or structures shall be constructed with materials approved for a minimum of 1-hour fire resistance rated construction with ignition resistant siding or constructed with approved non-combustible materials.

14.04.020 General requirements.

1. Conflict between Codes: Whenever there is a conflict between a Referenced Code in Section 14.04.010 of this code and the General Requirements contained in Section 14.04.020 of this code, the General Requirements shall apply.

2. Table R301.2(1), Climatic and Geographic Design Criteria, of the International Residential Code, is amended as follows:

<table>
<thead>
<tr>
<th>GROUND SNOW LOAD</th>
<th>WIND SPEED (mph)</th>
<th>SEISMIC DESIGN CATEGORY</th>
<th>SUBJECT TO DAMAGE FROM WEATHERING</th>
<th>FROST LINE DEPTH</th>
<th>TERMITIC</th>
<th>WINTER DESIGN TEMPE</th>
<th>ICE SHIELD UNDER LAYMENT REQUIRED</th>
<th>FLOOD HAZARDS</th>
<th>AIR FREEZING INDEX</th>
<th>MEAN ANNUAL TEMP</th>
</tr>
</thead>
<tbody>
<tr>
<td>Case Study (min. 30 Pf roof)</td>
<td>85</td>
<td>C, D0 and D1 are present</td>
<td>SEVERE</td>
<td>24&quot;</td>
<td>Slight to Moderate</td>
<td>2°F</td>
<td>YES</td>
<td>Date Entered Into NFIP: 9/1979</td>
<td>Date of Current FIRM Maps Adopted: 5/5/1981</td>
<td>1,000 - 2,000</td>
</tr>
</tbody>
</table>

1 All snow loads will be determined by the Building Official.
2 The seismic design category (between C & D1) will be determined on a site-specific basis.

a. Weathering may require a higher strength concrete or grade of masonry than necessary to satisfy the structural requirements of this code. The weathering column shall be filled in with the weathering index (i.e., "negligible", "moderate" or "severe") for concrete as determined from the Weathering Probability Map (Figure R301.2(3)). The grade of masonry units shall be determined from ASTM C 34, C 55, C 62, C 73, C 90, C 129, C 145, C 216 or C 652.

b. The frost line depth may require deeper footings than indicated in Figure R 403.1(1). The jurisdiction shall fill in the frost line depth column with the minimum depth of footing below finish grade.

c. The jurisdiction shall fill in this part of the table to indicate the need for protection depending on whether there has been a history of local subterranean termite damage.

d. The jurisdiction shall fill in this part of the table with the wind speed from the basic wind speed map (Figure R301.2(4)). Wind exposure category shall be determined on a site-specific basis in accordance with Section R301.2.1.4.

e. The outdoor design dry-bulb temperature shall be selected from the columns of 97 1/2-percent values for winter. Deviations from the temperatures shall be permitted to reflect local climates or local weather experience as determined by the building official.

f. The jurisdiction shall fill in this part of the table with the Seismic Design Category determined from Section R301.2.2.1.

g. The jurisdiction shall fill in this part of the table with (a) the date of the jurisdiction's entry into the National Flood insurance Program (date of adoption of the first code or ordinance for management of flood hazard areas), (b) the date(s) of the currently effective FIRM and FBFM, or other flood hazard map adopted by the community, as may be amended.

-5-
h. In accordance with Sections R90S.2.7.1, R90S.4.3.1, R90S.5.3.1, R90S.6.3.1, R90S.7.3.1 and R90S.8.3.1, for areas where there has been a history of local damage from the effects of ice damming, the jurisdiction shall fill in this part of the table with "YES". Otherwise, the jurisdiction shall fill in this part of the table with "NO."

i. The jurisdiction shall fill in this part of the table with the 100-year return period air freezing index (BF-days) from Figure R403.3(2) or from the 100-year (99%) value on the National Climatic Data Center data table “Air Freezing Index-USA Method (Base 32° Fahrenheit)” at www.ncdc.noaa.gov/ftp.html.

j. The jurisdiction shall fill in this part of the table with the mean annual temperature from the National Climatic Data Center data table “Air Freezing Index-USA Method (Base 32° Fahrenheit)” at www.ncdc.noaa.gov/ftp.html.

k. The Structural Engineers Association of Washington has conducted a case study (CS) for Washington State. This case study, titled “Snow Load Analysis for Washington”, may be used to establish the ground snowload in all areas of Kittitas County in lieu of a site specific case study.

3. Professional Preparation of Plans: Kittitas County shall require a Washington State licensed design professional, licensed under the provisions of RCW 18.82, WAC 308-12 (for Architects) or RCW 18.43 (for Engineers) to stamp, prepare or oversee the preparation of plans and calculations for buildings or structures when ANY of the following criteria are met but is not limited to the following:

   a. A building of any occupancy over 4,000 square feet.  
      Exception: residential buildings that do not contain more than 4 dwelling units; farm buildings of any size associated with commercial agriculture; buildings such as garages, sheds, barn or shelters for animals and machinery that are used in connection with or auxiliary to farm buildings, or in connection with or accessory to residential buildings of four dwelling units or less.

   b. Buildings containing five or more residential dwelling units.  
      Exception: buildings less than 4000 square feet.

   c. All log and timber frame structures and log and timber frame structural components.  
      This includes any log or beam style trusses used in stick framed buildings.

   d. All structures located above 70-psf ground snow load that are regulated by the International Residential Code.

   e. All structures located above 50-psf ground snow load that are regulated by the International Building Code.

4. Construction Plans: All submitted construction documents must be of sufficient detail and clarity to indicate the nature and extent of the work proposed. The amount of detail required will vary, depending on the nature and complexity of the project. The following minimum submittal standards for construction plans are as follows:

   a. Plans will be drawn to a minimum of 1/4" scale on appropriately sized paper with minimum 1" margins. Elevations may be 1/8" scale.

   b. Plans will be drawn on a minimum page size of 11" x 17".

   c. Plans must be on substantial paper, with clear and readable text. Minimum text sizes for hand-drawn plans should be 1/8" and 3/32" for CADD.

   Without these minimum standards, an application cannot be accepted.

14.04.030 Building relocation - Applicant.

   1. Applicant must furnish to Kittitas County a bond, cashier's check or certified check in the sum of 1000.00 for houses and/or 500.00 for outbuildings in addition to hourly plan review fee and a $.30 per square foot of usable space regardless of the classification of the structure. The
applicant must also submit an application for placement of the structure following and adhering to the adopted permit process and code requirements. Bond funds will be held by Kittitas County until the following conditions are met:

a. Appropriate inspections have been approved by the building department for setback requirements, foundation, structural, mechanical, plumbing, life safety, energy, ventilation and fire codes.

b. Electrical approval shall be made by the Washington State Department of Labor and Industries.

c. Final access approval must be made by the Kittitas County Department of Public Works prior to the issuance of a certificate of occupancy or use of the structure.

d. Final approval for potable water and sewage disposal from the Kittitas County Environmental Health Department is required prior to the issuance of a certificate of occupancy or use of the structure.

2. The structure must be completed as described in subsection (1) of this section within 365 days of the issuance of the building permit. If not completed, then the Building Official shall revoke the refund of the bond. This bond may then be utilized for the removal of the structure and any costs in excess of the bond amount shall be charged to the owner of record. The Building Official is authorized to grant one extension, not to exceed 365 days. The extension shall be requested in writing, prior to permit expiration, and justifiable cause shall be demonstrated. Fees for extension shall be established by resolution. If approved, any extension may occur only once.

3. The bond shall be held for 10 days from the date of compliance pursuant to KCC §16.070.

4. Refer to Chapter 5.16 KCC for definitions including other requirements for building relocation.

14.04.050 Dry cabins.

1. Dry cabins may be utilized as recreational dwelling units and may be located only in those remote areas where electrical power is not available. They may be utilized for no more than 90 days per year. The Building Official shall make the final determination regarding locations that qualify. These cabins shall have the following requirements and/or restrictions:

a. A permit shall be required including critical areas approval before construction proceeds. Structural aspects will be enforced as with any other permitted building. Fire and life safety issues such as roof covering, solid fuel or gas appliance location and installation and smoke detectors shall apply as with any other habitable structure.

b. The usable floor space shall be no less than 121 square feet and no more than 800 square feet of living area and not more than 200 additional square feet of attached garage or accessory use area. If the cabin has a loft area that could be utilized for sleeping purposes it must have an egress window as defined in the current adopted edition of the IRC. If heated with propane or oil, minimum insulation requirements will be required.

c. Dry cabins shall be provided with either a privy or composting toilet for which a permit will also be required from the Kittitas County Environmental Health Department.

2. Only under special circumstances and by decision of the Building Official, in its entirety, shall decisions conflicting with this policy be made.

3. Fees shall be determined by adopted resolution.

4. Dry cabins may be constructed of alternative materials as approved by the Building Official. Factory assembled structures are not included in this category.

5. Habitable dry cabins intended for recreational use may be unheated.
6. Dry cabins located within the area designated as a Wild-Land Urban Interface area shall comply with the Wild-Land Urban Interface code with the following exception:
   a. Properties may be exempt from the sprinkler requirement, upon Fire Marshal approval. All other applicable Wild-Land Urban Interface Codes shall apply.

14.04.070 Permits.

1. Except as specified in KCC 14.04.010 (work exempt from permit), no building or structure shall be erected, placed, constructed, enlarged, altered, repaired, moved, improved, removed, converted or demolished unless a separate permit for each building or structure has first been obtained from Kittitas County Community Development Services.

2. The building permit or copy thereof shall be kept on the site of the work until the completion of the project.

3. It shall be the duty of the permit holder or their agent to notify the building official that such work is ready for inspection. It shall be the duty of the person requesting any inspections required by this code to provide safe access to and means for inspection of such work.

4. Work shall not be done beyond the point indicated in each successive inspection without first obtaining the approval of the building official. The building official upon notification, shall make the requested inspections and shall either indicate the portion of the construction that is satisfactory as completed, or shall notify the permit holder or an agent of the permit holder wherein the same falls to comply with this code. Any portions that do not comply shall be corrected and such portions shall not be covered or concealed until authorized by the building official.

5. No building or structure shall be used or occupied, and no change in the existing occupancy classification of a building or structure or portion thereof shall be made until the building official has issued a certificate of occupancy therefor as provided herein. Issuance of a certificate of occupancy shall not be construed as an approval of a violation of the provisions of this code or of other ordinances of Kittitas County. Certificates presuming to give authority to violate or cancel provisions of this code or other ordinances of Kittitas County shall not be valid.
   a. Exception: Certificates of occupancy are not required for work exempt from permits.
   b. Exception: Certificates of occupancy are not required for accessory buildings or structures. (All structures require a final inspection).

6. All permits shall expire by limitation and be declared void if any one of the following apply:
   a. Work is not started within 365 days of obtaining a permit.
   b. Work is abandoned for 365 days or more after beginning work.
   c. An inspection and approval of work completed has not been performed by Kittitas County Community Development Services for 365 days.

7. The Building Official is authorized to grant one or more extensions, not to exceed 365 days per extension. The extension shall be requested in writing, prior to permit expiration, and justifiable cause shall be demonstrated. Fees for extension shall be established by resolution.

8. If a permit has expired, a new permit may be obtained for one-half the amount of the original permit fee(s) for a new permit for such work, plus issuance fees and less plan review fees, provided no changes have been made or will be made in the original construction documents for such work, and provided further that the permit was reviewed under the current adopted codes. If the permit is renewed under a different code, a plan review must be completed and charged at the current rate. If construction has or will deviate from the original permit, a revisions permit must be submitted, approved and issued in addition to renewal of the expired permit. Fees shall be established by resolution.

-8- Gregory L. Zempel
Kittitas County Prosecuting Attorney
Kittitas County Courthouse - Room 213
Ellensburg, WA 98926
(509) 962-7520
9. The Building Official, or designee, is authorized to perform a final inspection and issue a Certificate of Occupancy on an expired permit, provided that all inspections have been successfully completed except for the final inspection. The Building Official may require a re-inspection fee. A re-inspection fee shall be established by resolution.

ADOPTED this 6th day of July 2010 at Ellensburg, Washington.

Chapter 14.04
BUILDING CODE

Sections
14.04.010 Adoption of referenced codes.
14.04.020 Design requirements.
14.04.030 Building relocation - Applicant.
14.04.040 Mobile, manufactured, designated manufactured and modular homes.
14.04.050 Dry cabins.
14.04.060 Fees.
14.04.070 Permits.

14.04.010 Adoption of referenced codes.
Kittitas County hereby adopts the following codes, as amended by the Washington State Building Code Council pursuant to RCW 19.27 for the purpose of establishing rules and regulations for the construction, alteration, removal, demolition, equipment, use and occupancy, location and maintenance of buildings and structures.

   a. Appendices
      i. Appendix C: Agricultural Buildings
      ii. Appendix H: Signs
      iii. Appendix I: Patio Covers
   b. Amendments
      i. Section 105.2 Work Exempt from Building Permit.
         1. One story detached accessory structures used as tool and storage sheds, playhouses and similar uses, provided the floor area does not exceed 120 square feet and is not used as habitable space. All accessory structures must meet all zoning and building setbacks, and must comply with the requirements of KCC Title 17A (Critical Areas) and KCC Chapter 14.08 (Flood Damage Prevention).
      ii. Section 105.3.2 Expiration of Application
         1. If an application for a building permit is incomplete, a letter will be sent notifying the applicant of those items necessary to complete the application and that the application will expire 60 days from the date of notification if the required information is not submitted. The Building Official is authorized to grant one extension, not to exceed 180 days. The extension shall be requested in writing, prior to permit expiration, and justifiable cause shall be demonstrated. Fees for extension shall be established by resolution. Once applications become complete, they will be processed in order based on the date information was provided. If expired, the application becomes null and void, the deposit is forfeited and all submittal documents are returned to the applicant.
         2. If, after a plan review has been initiated, an application for building permit requires corrections, a letter will be sent notifying the applicant of those items necessary to complete the review of the application and that the application will expire 180 days from the date of notification if the corrections are not submitted.
application becomes null and void and the deposit is forfeited, and all submittal documents are returned to the applicant.

3.1 After a plan review has been completed, a letter will be sent notifying the applicant that the permit is ready for issuance and that if not purchased 180 days from the date of notification, the application will expire. The Building Official is authorized to grant one extension, not to exceed 365 days. The extension shall be requested in writing, prior to permit expiration, and justifiable cause shall be demonstrated. Fees for extension shall be established by resolution. If expired, the application becomes null and void, the deposit is forfeited and all submittal documents are returned to the applicant. If a completed application expires and the deposit is less than the plan review fee, the applicant is responsible for any outstanding balance and an invoice will be sent to the property owner of record.

a. Amendments

i. Section R105.2 Work Exempt from Building Permit

1. One-story detached accessory structures used as tool and storage shed, playhouses and similar uses, provided the floor area does not exceed 200 square feet and is not used for habitable space. All accessory structures must meet all zoning and building setbacks and must comply with the requirements of KCC Title 17A (Critical Areas) and KCC Title 17B (Flood Damage Prevention).

2. Platforms, sidewalks and driveways not more than 30 inches above adjacent grade and not over any basement or story below.

ii. Section R105.3.2 Expiration of Application

1. If an application for a building permit is incomplete, a letter will be sent notifying the applicant of those items necessary to complete the application and that the application will expire 60 days from the date of notification if the required information is not submitted. The Building Official is authorized to grant one extension, not to exceed 180 days. The extension shall be requested in writing, prior to permit expiration, and justifiable cause shall be demonstrated. Fees for extension shall be established by resolution. Once applications become complete, they will be processed in order based on the date all information was provided. If expired, the application becomes null and void, the deposit is forfeited and all submittal documents returned to the applicant.

2. If, after a plan review has been initiated, an application for building permit requires corrections, a letter will be sent notifying the applicant of those items necessary to complete the review of the application and that the application will expire 180 days from the date of notification if the corrections are not submitted. If expired, the application becomes null and void and the deposit is forfeited, and all submittal documents returned to the applicant.

3. After a plan review has been completed, a letter will be sent notifying the applicant that the permit is ready for issuance and that if not purchased 180 days from the date of notification, the application will expire. The Building Official is authorized to grant one extension, not to exceed 365 days. The extension shall be requested in writing, prior to permit expiration, and justifiable cause shall be demonstrated. Fees for extension shall be established by resolution. If expired, the application becomes null and void, the deposit is forfeited and all
submittal documents are returned to the applicant. If a completed application expires and the deposit is less than the plan review fee, the applicant is responsible for any outstanding balance and an invoice will be sent.

The following appendices and amendments are specifically adopted:

a. Appendices
   i. Appendix B: Fire Flow for Buildings
   ii. Appendix C: Fire Hydrant Locations and Distribution
   iii. Appendix D: Fire Apparatus Access Roads
   iv. Appendix E: Hazard Categories
   v. Appendix F: Hazard Ranking
   vi. Appendix G: Cryogenic Fluids—Weight and Volume Equivalents

   In case of conflict among the codes enumerated in subsections 1, 2, 3, and 4 of this section, the first named code shall govern over those following.

b. Amendments
   i. Chapter 45: Referenced Standards
      1. NFPA standard reference numbers as follows:
   5. Except as provided in RCW 49.27.120, The 2006 Uniform Plumbing Code (UPC), 2009 Edition, and Uniform Mechanical and Electrical Code Standards, published by the International Association of Plumbing and Mechanical Officials, as adopted and amended by the State of Washington in Chapter 51-56 WAC and Chapter 51-57 WAC; PROVIDED, that any provisions of such code affecting sewers or fuel gas piping are not adopted.

   a. Appendices
      i. Appendix A: General Requirements
      ii. Appendix B: Vegetation Management Plan
b. Amendments

   i. Section 502.1 General. The fire hazard severity of building sites for all buildings hereafter constructed, modified or relocated into wildland-urban interface areas shall be established in accordance with table 502.1
   1. Critical fire weather frequency, in days per annum, for Kittitas County shall be determined by historical area data from the Northwest Interagency Coordination Center.

   ii. Section 504.5 Exterior Walls

   1. Exterior walls of buildings or structures shall be constructed with materials approved for a minimum of 1-hour fire resistance rated construction with ignition resistant siding or constructed with approved non-combustible materials.

   iii. Section 505.5 Exterior Walls

   1. Exterior walls of buildings or structures shall be constructed with materials approved for a minimum of 1-hour fire resistance rated construction with ignition resistant siding or constructed with approved non-combustible materials.

14.04.020 General Design requirements.

Conflict between Codes: Whenever there is a conflict between a Referenced Code in Section 14.04.010 of this code and the General Requirements contained in Section 14.04.020 of this code, the General Requirements shall apply.

Climatic And Geographic Design Criteria

3.2 Table R301.2(1). Climatic and Geographic Design Criteria, of the International Residential Code, is amended as follows:

<table>
<thead>
<tr>
<th>Ground Snow Load (m)</th>
<th>Wind Speed (mph)</th>
<th>Seismic Design Category</th>
<th>Subject to Damage From</th>
<th>Winter Design Temp.</th>
<th>Ice Shield Underlayment Required Flood Hazards</th>
</tr>
</thead>
<tbody>
<tr>
<td>Case Study</td>
<td>85</td>
<td>C, D and D1 are present</td>
<td>Severe</td>
<td>24&quot;</td>
<td>Slight to Moderate</td>
</tr>
<tr>
<td>(min. 30 P1 roof)</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

*All snow loads are site-specific and will be determined by the Building Official.*
The seismic design category (between C & D1) will be determined on a site-specific basis.

a. Weathering may require a higher strength concrete or grade of masonry than necessary to satisfy the structural requirements of this code. The weathering column shall be filled in with the weathering index (i.e., "negligible", "moderate" or "severe") for concrete as determined from the Weathering Probability Map [Figure R301.2(1)]. The grade of masonry units shall be determined from ASTM C 39, C 55, C 62, C 73, C 90, C 129, C 145, C 216 or C 652.

b. The frost line depth may require deeper footings than indicated in Figure R 403.1(1). The jurisdiction shall fill in the frost line depth column with the minimum depth of footing below finish grade.

c. The jurisdiction shall fill in this part of the table to indicate the need for protection depending on whether there has been a history of local subterranean termite damage.

d. The jurisdiction shall fill in this part of the table with the wind speed from the basic wind speed map [Figure R301.2(4)]. Wind exposure category shall be determined on a site-specific basis in accordance with Section R301.2.1.4.

e. The outdoor design dry-bulb temperature shall be selected from the columns of 97.1/2-percent values for winter. Deviations from the temperatures shall be permitted to reflect local climates or local weather experience as determined by the building official.

f. The jurisdiction shall fill in this part of the table with the Seismic Design Category determined from Section R301.2.2.1.

g. The jurisdiction shall fill in this part of the table with (a) the date of the jurisdiction's entry into the National Flood Insurance Program (date of adoption of the first code or ordinance for management of flood hazard areas), (b) the date(s) of the currently effective FIRM and FBPAs, or other flood hazard map adopted by the community, as may be amended.

h. In accordance with Sections R905.2.7.1, R905.4.3.1, R905.5.3.1, R905.6.3.1, R905.7.3.1 and R905.8.3.1, for areas where there has been a history of local damage from the effects of ice damming, the jurisdiction shall fill in this part of the table with "YES". Otherwise, the jurisdiction shall fill in this part of the table with "NO."

i. The jurisdiction shall fill in this part of the table with the 100-year return period air freezing index (BF-days), from Figure R403.1(2) or from the 100-year (99%) value on the National Climatic Data Center data table “Air Freezing Index-USA Method (Base 32 °F Fahrenheit)” at www.ncdc.noaa.gov/ftpsoft.html.

j. The jurisdiction shall fill in this part of the table with the mean annual temperature from the National Climatic Data Center data table “Air Freezing Index-USA Method (Base 32 °F Fahrenheit)” at www.ncdc.noaa.gov/ftpsoft.html.

k. The Structural Engineers Association of Washington has conducted a case study (CS) for Washington State. This case study, titled “Snow Load Analysis for Washington”: may be used to establish the ground snow load in all areas of Kittitas County in lieu of a site specific case study.

2. Professional Preparation of Plans: Kittitas County shall require a Washington State licensed design professional, licensed under the provisions of RCW 18.08, WAC 308-12 (for Architects) or RCW 18.43 (for Engineers) to stamp, prepare or oversee the preparation of plans and calculations for buildings or structures when ANY of the following criteria are met but is not limited to the following:

a. A building of any occupancy over 4,000 square feet.

Exception: residential buildings that do not contain more than 4 dwelling units; farm buildings of any size associated with commercial agriculture; buildings such as garages, sheds, barn or shelters for animals and machinery that are used in connection with or auxiliary to farm buildings, or in connection with or accessory to residential buildings of four dwelling units or less.
b. Buildings containing five or more residential dwelling units.

Exception: buildings less than 4000 square feet.

c. All log and timber frame structures and log and timber frame structural components.

This includes any log or beam style trusses used in stick framed buildings.

d. All structures located above 70-psf ground snow load that are regulated by the International Residential Code.

e. All structures located above 50-psf ground snow load that are regulated by the International Building Code.

3.4. Construction Plans: All submitted construction documents must be of sufficient detail and clarity to indicate the nature and extent of the work proposed. The amount of detail required will vary, depending on the nature and complexity of the project. The following minimum submittal standards for construction plans are as follows:

a. Plans will be drawn to a minimum of 1/4" scale on appropriately sized paper with minimum 1" margins. Elevations may be 1/8" scale.

b. Plans will be drawn on a minimum page size of 11" x 17".

c. Plans must be on substantial paper, with clear and readable text. Minimum text sizes for hand-drawn plans should be 1/8" and 3/32" for CADD.

Without these minimum standards, an application cannot be accepted.

14.04.030 Building relocation - Applicant.

1. Applicant must furnish to Kittitas County a bond, cashier's check or certified check in the sum of $1000.00 for houses and/or $500.00 for outbuildings in addition to hourly plan review fee and a $.30 per square foot of usable space regardless of the classification of the structure. The applicant must also submit an application for placement of the structure following and adhering to the adopted permit process and code requirements. Bond funds will be held by Kittitas County until the following conditions are met:

a. Appropriate inspections have been approved by the building department for setback requirements, foundation, structural, mechanical, plumbing, life safety, energy, ventilation and fire codes.

b. Electrical approval shall be made by the Washington State Department of Labor and Industries.

c. Final access approval must be made by the Kittitas County Department of Public Works prior to the issuance of a certificate of occupancy or use of the structure.

d. Final approval for potable water and sewage disposal from the Kittitas County Environmental Health Department is required prior to the issuance of a certificate of occupancy or use of the structure.

2. The structure must be completed as described in subsection (1) of this section within 365 days of the issuance of the building permit. If not completed, then the Building Official shall revoke the refund of the bond. This bond may then be utilized for the removal of the structure and any costs in excess of the bond amount shall be charged to the owner of record. The Building Official is authorized to grant one extension, not to exceed 365 days. The extension shall be requested in writing, prior to permit expiration, and justifiable cause shall be demonstrated. Fees for extension shall be established by resolution. If approved, any extension may occur only once.

3. The bond shall be held for 10 days from the date of compliance pursuant to KCC 5.16.070.

4. Refer to Chapter 5.16 KCC for definitions including other requirements for building relocation.

14.04.050 Dry cabins.
1. Dry cabins may be utilized as recreational dwelling units and may be located only in those remote areas where electrical power is not available. They may be utilized for no more than 90 days per year. The Building Official shall make the final determination regarding locations that qualify. These cabins shall have the following requirements and/or restrictions:
   a. A permit shall be required including critical areas approval before construction proceeds. Structural aspects will be enforced as with any other permitted building. Fire and life safety issues such as roof covering, solid fuel or gas appliance location and installation and smoke detectors shall apply as with any other habitable structure.
   b. The usable floor space shall be no less than 121 square feet and no more than 800 square feet of living area and not more than 200 additional square feet of attached garage or accessory use area. If the cabin has a loft area that could be utilized for sleeping purposes it must have an egress window as defined in the current adopted edition of the IRC. If heated with propane or oil, minimum insulation requirements will be required.
   c. Dry cabins shall be provided with either a privy or composting toilet for which a permit will also be required from the Kittitas County Environmental Health Department.
2. Only under special circumstances and by decision of the Building Official, in its entirety, shall decisions conflicting with this policy be made.
3. Fees shall be determined by adopted resolution.
4. Dry cabins may be constructed of alternative materials as approved by the Building Official. Factory assembled structures are not included in this category.
5. Habitable dry cabins intended for recreational use may be unheated.
   a. Properties may be exempt from the sprinkler requirement upon Fire Marshal approval.
   b. All other applicable Wild-Land Urban Interface Codes shall apply.

14.04.070 Permits.

1. Except as specified in KCC 14.04.010 (work exempt from permit), no building or structure shall be erected, placed, constructed, enlarged, altered, repaired, moved, improved, removed, converted or demolished unless a separate permit for each building or structure has first been obtained from Kittitas County Community Development Services.
2. The building permit or copy thereof shall be kept on the site of the work until the completion of the project.
3. It shall be the duty of the permit holder or their agent to notify the building official that such work is ready for inspection. It shall be the duty of the person requesting any inspections required by this code to provide safe access to and means for inspection of such work.
4. Work shall not be done beyond the point indicated in each successive inspection without first obtaining the approval of the building official. The building official upon notification, shall make the requested inspections and shall either indicate the portion of the construction that is satisfactory as completed, or shall notify the permit holder or an agent of the permit holder wherein the same fails to comply with this code. Any portions that do not comply shall be corrected and such portions shall not be covered or concealed until authorized by the building official.
5. No building or structure shall be used or occupied, and no change in the existing occupancy classification of a building or structure or portion thereof shall be made until the building official has issued a certificate of occupancy therefor as provided herein. Issuance of a certificate of occupancy shall not be construed as an approval of a violation of the provisions of this code or of other ordinances of Kittitas County. Certificates presuming to give authority to violate or cancel provisions of this code or other ordinances of Kittitas County shall not be valid.
   a. Exception: Certificates of occupancy are not required for work exempt from permits.
4.6. All permits shall expire by limitation and be declared void if any one of the following apply:
   a. Work is not started within 365 days of obtaining a permit.
   b. Work is abandoned for 365 days or more after beginning work.
   c. An inspection and approval of work completed has not been performed by Kittitas County Community Development Services for 365 days.

3.7. The Building Official is authorized to grant one or more extensions, not to exceed 365 days per extension. The extension shall be requested in writing, prior to permit expiration, and justifiable cause shall be demonstrated. Fees for extension shall be established by resolution.

4.8. If a permit has expired, a new permit may be obtained for one-half the amount of the original permit fee(s) for a new permit for such work, plus issuance fees and less plan review fees, provided no changes have been made or will be made in the original construction documents for such work, and provided further that the permit was reviewed under the current adopted codes. If the permit is renewed under a different code, a plan review must be completed and charged at the current rate. If construction has or will deviate from the original permit, a revisions permit must be submitted, approved and issued in addition to renewal of the expired permit. Fees shall be established by resolution.

5.4. The Building Official, or designee, is authorized to perform a final inspection and issue a Certificate of Occupancy on an expired permit, provided that all inspections have been successfully completed except for the final inspection. The Building Official may require a re-inspection fee. A re-inspection fee shall be established by resolution.
