PLUMBING VENT TERMINATION POLICY

FOR MORE INFORMATION VISIT THE CDS WEBSITE AT: WWW.CO.KITTITAS.WA.US/CDS

Plumbing vent termination(s) shall be permitted to terminate horizontal through the gable end of the structure provided the following are met.

1. The plumbing vent stack shall terminate a minimum of 12 inches horizontal from the exterior of the structure and 12 inches vertical below any horizontal portion of the structure.
2. Each vent shall terminate not less than ten (10) feet from, or at least three (3) feet above, any operable window, door, opening, air intake, or vent shaft, nor less than three (3) feet in every direction from any lot line, alley and street excepted.

DATE: 9/8/16
