Kittitas County Community Development Services prepared proposed Comprehensive Plan amendments for renewable energy projects, such as solar facilities. These amendments were docketed with CDS prior to the June 30th docketing deadline. More comprehensive amendments supporting other renewable energy projects and other sustainability initiatives may be considered in future year(s).

DRAFT—August 5, 2011

Kittitas County Comprehensive Plan, Chapter 6. Utilities, is amended as follows:

GPO 6.36 Develop a study area encompassing the entire county to establish criteria and design standards for the siting of solar farms.
