11-06	Electric Vehicle Infrastructure	Amend sections of Title 10; Title 12; Title 15; and Title 17 to adopt new regulations for electric vehicle charging stations, parking spaces, signs, and land use review and zoning.	BOCC; Staff	Anna	Docket

Kittitas County Community Development Services prepared proposed amendments for Electric Vehicle Infrastructure. These amendments were docketed with CDS prior to the June 30th docketing deadline.

In 2009, the Washington State Legislature passed a new law, 2SHB 1481, to support and encourage the use of electric vehicles and supporting charging infrastructure. Sections 9 through 13 of the bill require all cities and counties in Washington State to allow electric vehicle battery charging stations as a use in all zones except for residential, resource, or critical areas by July 1, 2011.

Cities adjacent to I-5, I-405, I-90, and SR-520, and must also allow battery exchange stations. Counties must also allow battery exchange stations in areas within 1 mile of these corridors. Electric vehicle battery charging stations and battery exchange stations are called “electric vehicle infrastructure”. These requirements are codified in RCW 36.70A.695 for local governments planning under the GMA, and are codified in other sections of state code for other local governments.

RCW 36.70A.695 does not require that cities and counties take legislative action to allow electric vehicles. City and county codes may already allow electric vehicles with existing zoning and administrative tools, however it is recommended that simple code changes are made, such as:

- Adopting electric vehicle-related definitions.
- Adding EVI to permitted uses in the zoning code, either as an ancillary use or a principal use in all zones, except residential, resource and critical areas. There is no statutory prohibition on EVI in those zones, however state law does not require that EVI be allowed. Many communities are choosing to allow EVI as an ancillary use to a principal use in almost every zone.
- Adopting signage and design standards for EV parking.
- Adopting enforcement provisions for EV parking.

The proposed EVI amendments include development regulations for these issues.

**DRAFT—August 5, 2011**

*Kittitas County Code, Title 10, VEHICLES AND TRAFFIC, is amended as follows:*

**Chapters**

- 10.04 Uniform Standards for Road Signs and Traffic-Control Devices
- 10.05 Emergency Routes on County Roads and Public Rights-of-Way
- 10.06 Parking on County Property
- 10.07 No Parking Areas
- 10.08 Speed Limits on County Roads
- 10.12 Stop and Yield Streets
- 10.16 Permit Fees for Overweight Vehicles

- 10.20 Permits for Logging Trucks (Repealed)
- 10.24 All-Terrain Vehicles
- 10.28 Seasonal Weight Restrictions
- 10.32 Snowmobiles
- 10.36 Off-Road Vehicles (Repealed)

## **Chapter 10.38**

### **ELECTRIC VEHICLE CHARGING STATIONS**

#### **10.38.010 Applicability**

**This chapter applies to electric vehicle charging stations on public roads and County-owned property, including the County fairgrounds, courthouse, airport, or similar.**

#### **10.38.020 Electric Vehicle Charging Stations — Generally**

1. **Electric vehicle charging stations are reserved for parking and charging electric vehicles only.**
2. **Electric vehicles may be parked in any space designated for public parking, subject to the restrictions that would apply to any other vehicle that would park in that space.**

#### **10.38.030 Prohibitions**

1. **Pursuant to Section 10.38.050, when a sign authorized under Section 10.38.040 provides notice that a space is a designated electric vehicle charging station, no person shall park or stand any non-electric vehicle in a designated electric vehicle charging station space. Any non-electric vehicle is subject to fine or removal.**
2. **Pursuant to Section 10.38.050, any electric vehicle in any designated electric vehicle charging station space and not electrically charging or parked beyond the days and hours designated on regulatory signs posted at or near the space, shall be subject to a fine and/or removal. For purposes of this subsection, “charging” means an electric vehicle is parked at an electric vehicle charging station and is connected to the charging station equipment.**

#### **10.38.040 Noticing of Electric Vehicle Charging Stations**

1. **Upon adoption by Kittitas County Board of County Commissioners, the Kittitas County engineer shall cause appropriate signs and marking to be placed in and around electric vehicle charging station spaces, indicating prominently thereon the parking regulations. The signs shall define time limits and hours of operation, as applicable, shall state that the parking space is reserved for charging electric vehicles and that an electric vehicle may only park in the space for charging purposes. Violators are subject to a fine and/or removal of their vehicle.**

#### **10.38.050 Violations-Penalty**

1. **Violations of this chapter shall be punishable as infractions. Punishment shall be by a fine not to exceed the fine prescribed in accordance with Chapter 46.63 RCW. Each day such violation is committed shall constitute a separate offense and shall be punishable as such.**

2. **In addition to a fine, a person who has parked or left a vehicle standing upon a street, alley, or Kittitas County parking lot or garage in violation of this chapter is subject to having the vehicle removed from the street, alley, or Kittitas County parking lot or garage and impounded by any member of the sheriff's department authorized by the sheriff or designated law official at the owner's expense.**

## **Chapter 12.14**

### **ELECTRIC VEHICLE CHARGING STATIONS**

#### **12.14.010 On-street Electric Vehicle Charging Stations — Generally.**

1. **Purpose. Curbside electric vehicle charging stations adjacent to on-street parking spaces are reserved for charging electric vehicles.**
2. **Size. A standard size parking space may be used as an electric vehicle charging station.**
3. **Location and Design Criteria.**

- a. Where provided, parking for electric vehicle charging purposes is required to include the following:
    - i. Signage. Each charging station space shall be posted with signage indicating the space is only for electric vehicle charging purposes. Days and hours of operations shall be included if time limits or tow away provisions are to be enforced.
    - ii. Maintenance. Charging station equipment shall be maintained in all respects, including the functioning of the charging equipment. A phone number or other contact information shall be provided on the charging station equipment for reporting when the equipment is not functioning or other problems are encountered.
    - iii. Accessibility. Charging station equipment located within a sidewalk shall not interfere with accessibility requirements of WAC 51-50-005.
    - iv. Clearance. Charging station equipment mounted on pedestals, light posts, bollards or other devices shall be a minimum of 24 inches clear from the face of curb.
    - v. Lighting. Where charging station equipment is installed, adequate site lighting shall exist, unless charging is for daytime purposes only.
    - vi. Charging Station Equipment. Charging station outlets and connector devices shall be no less than 36 inches or no higher than 48 inches from the top of surface where mounted, and shall contain a retraction device and/or a place to hang permanent cords and connectors sufficiently above the ground or paved surface.
    - vii. Charging Station Equipment Protection. When the electric vehicle charging station space is perpendicular or at an angle to curb face and charging equipment, adequate equipment protection, such as wheel stops or concrete-filled steel bollards shall be used. Appropriate signage indicating if backing in is allowed or not shall be posted.
  - b. Parking for electric vehicles should also consider the following:
    - i. Notification. Information on the charging station identifying voltage and amperage levels and any time of use, fees, or safety information.
    - ii. Signage. Installation of directional signs at appropriate decision points to effectively guide motorists to the charging station space(s).
    - iii. Location. Placement of a single electric vehicle charging station is preferred at the beginning or end stall on a block face.
4. Data Collection. To allow for maintenance and notification, the local permitting agency will require the owners of any private new electric vehicle infrastructure station that will be publicly available (see definition “electric vehicle charging station — public”) to provide information on the station’s geographic location, date of installation, equipment type and model, and owner contact information.

**Figure 12.14.010 : Electric Vehicle Charging Station — On Street**

**12.14.020 Signage.**

**1. Examples of Sign Combinations for Electric Vehicle Charging Stations.**

- a. **Directional. Directional signs are to be used on local roads or highways to direct drivers to electric vehicle charging stations. The combination of an approved electric vehicle charging station sign and an arrow sign may be used, as shown below.**

- a. **On-Street Parking With Charging Station Equipment. This combination of signs is to be used at the location of the charging station. The “Electric Vehicle Charging**

Station” sign notifies the driver of the special status of the space and the No Parking sign shows that the space is reserved for charging. The maximum number of charging hours allowed can be determined by the bottom sign, as well as the hours of enforcement.

**17.08.101 Battery charging station.**

**“Battery charging station” means an electrical component assembly or cluster of component assemblies designed specifically to charge batteries within electric vehicles, which meet or exceed any standards, codes, and regulations set forth by chapter 19.28 RCW and consistent with rules adopted under RCW 19.27.540.**

**17.08.102 Battery electric vehicle (BEV).**

**“Battery electric vehicle (BEV)” means any vehicle that operates exclusively on electrical energy from an off-board source that is stored in the vehicle’s batteries, and produces zero tailpipe emissions or pollution when stationary or operating.**

**17.08.103 Battery Exchange Station.**

**“Battery exchange station” means a fully automated facility that will enable an electric vehicle with a swappable battery to enter a drive lane and exchange the depleted battery with a fully charged battery through a fully automated process, which meets or exceeds any standards, codes, and regulations set forth by chapter 19.27 RCW and consistent with rules adopted under RCW 19.27.540.**

[...]

**17.08.158 Charging Levels.**

**“Charging levels” means the standardized indicators of electrical force, or voltage, at which an electric vehicle’s battery is recharged. The terms 1, 2, and 3 are the most common EV charging levels, and include the following specifications:**

- **Level 1 is considered slow charging.**
- **Level 2 is considered medium charging.**
- **Level 3 is considered fast or rapid charging.**

[...]

**17.08.221 Electric scooters and motorcycles.**

**“Electric scooters and motorcycles” means any 2-wheel vehicle that operates exclusively on electrical energy from an off-board source that is stored in the vehicle’s batteries and produces zero emissions or pollution when stationary or operating.**

**17.08.222 Electric vehicle.**

“Electric vehicle” means any vehicle that operates, either partially or exclusively, on electrical energy from the grid, or an off-board source, that is stored on-board for motive purpose. “Electric vehicle” includes: (1) a battery electric vehicle; (2) a plug-in hybrid electric vehicle; (3) a neighborhood electric vehicle; and (4) a medium-speed electric vehicle.

17.08.223 Electric vehicle charging station.

“Electric vehicle charging station” means a public or private parking space that is served by battery charging station equipment that has as its primary purpose the transfer of electric energy (by conductive or inductive means) to a battery or other energy storage device in an electric vehicle. An electric vehicle charging station equipped with Level 1 or Level 2 charging equipment is permitted outright as an accessory use to any principal use.

17.08.223A Electric vehicle charging station — restricted.

“Electric vehicle charging station — restricted” means an electric vehicle charging station that is (1) privately owned and restricted access (e.g., single-family home, executive parking, designated employee parking) or (2) publicly owned and restricted (e.g., fleet parking with no access to the general public).

17.08.223B Electric vehicle charging station — public.

“Electric vehicle charging station — public” means an electric vehicle charging station that is (1) publicly owned and publicly available (e.g., Park & Ride parking, public library parking lot, on-street parking) or (2) privately owned and publicly available (e.g., shopping center parking, non-reserved parking in multi-family parking lots).

17.08.224 Electric vehicle infrastructure.

“Electric vehicle infrastructure” means structures, machinery, and equipment necessary and integral to support an electric vehicle, including battery charging stations, rapid charging stations, and battery exchange stations.

17.08.224A Electric vehicle parking space.

“Electric vehicle parking space” means any marked parking space that identifies the use to be exclusively for the parking of an electric vehicle.

[...]

17.08.393 Medium-speed electric vehicle.

“Medium-speed Electric Vehicle” means a self-propelled, electrically powered four-wheeled motor vehicle, equipped with a roll cage or crush-proof body design, whose speed attainable in one mile is more than 25 miles per hour but not more than 35 miles per hour and otherwise meets or exceeds the federal regulations set forth in 49 C.F.R. Sec. 571.500.

[...]

17.08.408 Neighborhood Electric Vehicle.

“Neighborhood Electric Vehicle” means a self-propelled, electrically powered four-wheeled motor vehicle whose speed attainable in one mile is more than 20 miles per hour and not more than 25 miles per hour and conforms to federal regulations under Title 49 C.F.R. Part 571.500.

[...]

17.08.412 Non-electric vehicle.

**“Non-Electric Vehicle” means any motor vehicle that does not meet the definition of “electric vehicle.”**

[...]

**17.08.455A Plug-in hybrid electric vehicle (PHEV).**

**“Plug-in hybrid electric vehicle (PHEV)” means an electric vehicle that (1) contains an internal combustion engine and also allows power to be delivered to drive wheels by an electric motor; (2) charges its battery primarily by connecting to the grid or other off-board electrical source; (3) may additionally be able to sustain battery charge using an on-board internal-combustion-driven generator; and (4) has the ability to travel powered by electricity.**

[...]

**17.08.461 Rapid charging station.**

**“Rapid charging station” means an industrial grade electrical outlet that allows for faster recharging of electric vehicle batteries through higher power levels and that meets or exceeds any standards, codes, and regulations set forth by chapter 19.28 RCW and consistent with rules adopted under RCW 19.27.540.**

MASTER PLANNED RESORTS**

[...]

**17.37.030 Uses permitted.**

The following uses may be permitted within a master planned resort classification:

1. All residential uses including single-family and multifamily structures, condominiums, time-share and fractionally owned accommodations of all kinds, provided such uses are integrated into and support the on-site recreational nature of the master planned resort.
2. Short-term visitor accommodations, including, but not limited to, hotels, motels, lodges, and any residential use permitted under subsection A of this section that is made available for short-term rental; provided, however, short-term visitor accommodation units shall constitute greater than 50 percent of the total resort accommodation units.
3. Indoor and outdoor recreational facilities and uses, including, but not limited to, golf courses (including accessory structures and facilities, such as clubhouses, practice facilities, and maintenance facilities), tennis courts, swimming pools, marinas, alpine and/or cross country skiing, hiking and nature trails, bicycle paths, equestrian facilities, skating arenas, sports complexes, bowling alleys, and other recreational uses deemed to be consistent with the on-site recreational nature of the master planned resort.
4. Campgrounds and recreational vehicle ("RV") sites with power and water; provided, however, campgrounds and recreational vehicle sites without power and water are conditional uses.
5. Visitor-oriented amenities, including, but not limited to (1) restaurants, cafes, delicatessens, pubs, taverns and cocktail bars and entertainment associated with such uses; (2) meeting facilities; (3) on-site retail businesses and services limited to those typically found on other destination resort properties and which are designed to serve the convenience needs of the users and employees of the master planned resort; and (4) recreation businesses and facilities. Retail and commercial services offered on the resort shall be designed to discourage use from non-resort users by locating such services well within the site rather than on its perimeter.

6. Cultural and educational facilities of all kinds, including, but not limited to, interpretative centers and exhibits, and indoor and outdoor theaters.
7. Roadways and bridges, which, subject to any development agreement executed with the county pursuant to Chapter 15A.11 KCC, Development Agreements, and RCW 36.70B.170 through 36.70B.210, may include roadways and bridges that are privately owned and maintained.
8. Industrial uses and capital facilities, utilities and services to the extent necessary to maintain and operate the master planned resort.
9. Temporary and/or permanent structures to serve as sales offices.
10. Any other similar uses deemed by the Community Development Services director to be consistent with the purpose and intent of this chapter, the county comprehensive plan policies regarding master planned resorts, and RCW 36.70A.360. (Ord. 2007-22, 2007; Ord. 2000-13, 2000)

**UTILITIES**

[...]

**17.61.010 Definitions.**

1. "Utility" or "utilities" means the supply, treatment and distribution, as appropriate, of gas, gas meter stations, municipal domestic and irrigation water, sewage, storm water, electricity, telephone, fiber-optic and cable television. Such utilities consist of both the service activity along with the physical facilities necessary for the utilities to be supplied, except for associated facilities and special utilities as defined herein. **Electric vehicle infrastructure, as provided for in Chapter 17.66, is not a “utility” or “utilities”.**

**17.66.020: Off Street Parking — Electric Vehicle Charging Stations**

**To ensure an effective installation of electric vehicle charging stations, the regulations in this subsection provide a framework for when a private property owner chooses to provide electric vehicle charging stations.**

**1. Electric Vehicle Charging Station Spaces**

- a. **Purpose. For all parking lots or garages, except those that include restricted electric vehicle charging stations.**
- b. **Number. No minimum number of charging station spaces is required.**
- c. **Minimum Parking Requirements. An electric vehicle charging station space may be included in the calculation for minimum required parking spaces that are required pursuant to other provisions of code.**
- d. **Location and Design Criteria. The provision of electric vehicle parking will vary based on the design and use of the primary parking lot. The following required and additional locational and design criteria are provided in recognition of the various parking lot layout options.**
  - i. **Where provided, parking for electric vehicle charging purposes is required to include the following:**
    1. **Signage. Each charging station space shall be posted with signage indicating the space is only for electric vehicle charging purposes. Days and hours of operations shall be included if time limits or tow away provisions are to be enforced. Signage design shall comply with the signage examples in KCC 12.14.020.**
    2. **Maintenance. Charging station equipment shall be maintained in all respects, including the functioning of the charging equipment. A phone number or other contact information shall be provided on the charging station equipment for reporting when the equipment is not functioning or other problems are encountered.**
    3. **Accessibility. Where charging station equipment is provided within an adjacent pedestrian circulation area, such as a sidewalk or accessible route to the building entrance, the charging equipment shall be located so as not to interfere with accessibility requirements of WAC 51-50-005.**
    4. **Lighting. Where charging station equipment is installed, adequate site lighting shall exist, unless charging is for daytime purposes only.**
  - ii. **Parking for electric vehicles should also consider the following:**

1. Notification. Information on the charging station, identifying voltage and amperage levels and any time of use, fees, or safety information.
  2. Signage. Installation of directional signs at the parking lot entrance and at appropriate decision points to effectively guide motorists to the charging station space(s).
- e. Data Collection. To allow for maintenance and notification, the local permitting agency will require the owners of any private new electric vehicle infrastructure station that will be publicly available (see definition “electric vehicle charging station — public”) to provide information on the station’s geographic location, date of installation, equipment type and model, and owner contact information.
