

Docket No.	Project Name	Brief Description of Suggested Amendment	Who Suggested Amendment	Staff Lead	Staff Recommendation
14-12	Roslyn UGA Expansion	The City of Roslyn has requested that two parcels and associated right of way be included in their UGA.	City of Roslyn	CDS	Postpone consideration to the 2017 Comprehensive Plan update.

On June 30, 2014, the 2014 docketing deadline, the Mayor of the City of Roslyn requested that Kittitas County place a proposal to add two parcels (20-15-20056-1503 and 20-15-20056-1515) and the associated right of way totaling 2.5 acres to the Roslyn UGA on the docket for consideration. A change to the county land use map from Rural Residential to Urban would be required; no change to zoning would have been necessary. Community Development Services determined that a land capacity analysis would be required to justify the expansion under the requirements of the Growth Management Act (RCW 36.70A.115). Neither the County nor the City of Roslyn has the resources to provide an appropriate analysis at this time and inasmuch as such an analysis will be required during the 2017 update, staff (with City of Roslyn staff concurrence) recommends that this item be reexamined at that time.
