15-14	KCC Chapter 15.08 and Section 17.15.0606	Include definition on allowance of an agricultural sustainability center and rural tourism and allow such uses in Ag 20, Commercial Ag, and Forest and Range Zones.	Private Party	CDS - planning	Approve	Approve

Summary

The amendments propose to add definitions of Agricultural Sustainability Center and Rural Tourism to Kittitas County Code Chapter 17.08 and allow these two new uses in Rural Non-LAMIRD and Rural LAMIRD lands as shown in the Land Use Tables of Kittitas County Code Chapter 17.15.060.

Consistent with the Growth Management Act (RCW 36.70A) the County's Comprehensive Plan recognizes the importance of preserving rural character. The County's zoning code attempts to preserve rural character by limiting the types and intensity of uses and development that can occur in rural areas; it does this by defining different uses and indicating in the Tables of KCC 17.15.060 whether and to what extent such uses are allowed in various zones. However, the County's zoning code omits certain uses that are consistent with rural lifestyles. Amending Chapter 17.08 in include definitions for Agricultural Sustainability Center and Rural Tourism, and allowing such uses in certain rural zones, under specified terms and conditions, would help to ensure that certain activities in rural areas can take place in various rural zones when conditions are such that the use will be consistent with the rural character.

The proposed amendments would add definitions to Kittitas County Code which describe uses that, when engaged in under the proper conditions, are uses that typify and are symbolic of rural lifestyles and character. The newly defined uses, permitted in certain rural zones under certain conditions, would enhance the County's rural character, add variety to rural densities, encourage rural community, and establish new uses within rural areas that are not only compatible with, but representative of, historical rural communities. The proposed amendments would provide efficient and productive uses of rural land in ways that promote economic development, create the opportunity for innovative housing and a mix of uses that preserves rural character, and require only rural utilities and services.

Consistent with the purpose and intent of zoning classifications the proposed amendments would make the Agricultural Sustainability Center a conditional use in all rural zones (LAMIRD and non-LAMIRD) except for General Commercial, Light Industrial, General Industrial, Limited Commercial, and Highway Commercial where Agricultural Sustainability Centers would be a permitted use. Consistent with the purpose and intent of zoning classifications the proposed amendments would make Rural Tourism a conditional use in the

following rural zones: Rural Residential, Rural 5, Agriculture 3, Agriculture 20, Forest and Range, Master Planned Resort, Rural Recreation, PUD, Residential, Residential 2, and Residential 5. In all other zones in rural and zones (LAMIRD and non-LAMIRD) Rural Tourism would be a permitted use. These provisions will ensure that the use is conditioned as necessary to be compatible with rural character, have adequate public services and water supply, and preserve open space, and recreational opportunities.

17.08.031A Agricultural Sustainability Center

“Agricultural Sustainability Center” is a facility designed around one or more sustainable, low-impact agricultural activities such as farming, beekeeping, horticulture, gardening, or cultivation of one or more food crops, the primary purpose of which facility is to promote or enhance sustainable rural lifestyles and traditions through education and example. An agricultural sustainability center may include multiple structures and dwellings on a single parcel, and notwithstanding parcel size, and may allow temporary overnight accommodations within such structures, provided that: (a) the occupancy of any such structures is directly related to the agricultural education and sustainability activities occurring on-site; and (b) the structures and uses are designed and operated in a manner consistent with the rural character. For example, an agricultural sustainability center may consist of a barn, a community garden, a greenhouse, and one or more small cottage(s) providing temporary accommodation for farmworkers, farm-stay programs, or guests who are learning about sustainable agriculture.

17.08.471A Rural Tourism

“Rural Tourism” means an experience involving visit to rural settings or rural environments for the purpose of participation in or experiencing activities, events, or attractions not readily available in urbanized areas, and having a rural or agricultural component. Rural tourist uses sized and scaled to have minimal impacts on the surrounding areas, and be supported by rural services.
