## Comprehensive Plan Audit – Rural Lands Element

### Rural Lands Element

\*See Audit Reference Guide for explanation and instructions

GPO #	General Goals   Policies	Remove	Move	Revise	Goal/Policy	Justification	Implementation
<b>Goals</b>							
8.1	Preserve and protect rural lands characterized by a lower level of services; mixed residential, agricultural and open space uses; broad visual landscapes and parcels of varying sizes, a variety of housing types and small unincorporated communities, and rural commercial activities.						
8.13	Encourage development activities and development standards which enhance or result in the preservation of rural lands.						
8.18	Limit development in rural areas through density requirements that protect and maintain existing rural character, natural open space, critical areas, and recreation areas.						
8.40	Research new land use techniques that provide economic incentives to encourage continuation of agriculture activities.

	of rock and gravel resources which does not negatively impact rural character.						
8.14	Allow for a variety of rural densities which maintain and recognize rural character, agricultural activities, rural community and development patterns, open spaces and recreational opportunities.						
8.15	Uses encumbering priority land uses commonly found in rural areas of Kittitas County, such as agriculture uses in Lower Kittitas and recreation uses in Upper Kittitas shall be allowed only after land use review						
8.19	Adequate buffer distances and appropriate vegetation shall be considered for proposals in order to reduce incompatibility between differing rural land uses.						
8.20	Cottage and home occupations which are rural in nature and have minimal impact upon the rural nature of the county should be encouraged within all rural land use designations.						
8.22	Encourage agricultural activities which

	sell and market local agricultural products and tourist activities.						
8.23	Municipal, or public urban services will not be extended outside of urban growth areas except to a Master Planned Resort which is approved by the County and when expenses for such extension are fully borne by the resort or community.						
8.24	Capital Facilities and Utilities may be sited, constructed, and operated within a Master Planned Resort (MPR), or Limited Area of More Intensive Rural Development (LAMIRD)) on property located outside of urban growth areas if such facilities and utilities are located within the boundaries of such approved resort or community. Per RCW 36.70A 070 (5)(d).						
8.28	Clustering of development can only occur where it results in the protection of open space and will not negatively impact farming activity or preservation of other resource lands.						
8.28	When clustering of development is

	proposed on land that shares boundaries with public lands and provides existing public access to recreational uses on adjacent public lands, easements for public access connections shall be considered during development review.						
8.28	The open space portion of the cluster development shall be located to protect wildlife habitat and migration corridors and shall be the responsibility of potential residents.						
8.30	Residential development on rural lands will not be approved without adequate water and sewer/septic systems as required by the State and local standards.						
8.31	Residential uses, where permitted, shall be located where farming and forestry activities and opportunities are not negatively impacted.						
8.33	Planned Unit Developments (PUD) in rural areas can only be established where such developments will not require urban services and reduce maintenance of rural character.
