Subject: Comment on Weis Tower LLC Installation Proposal

To Kittitas County Community Development Services,

On behalf of Kittitas County Fire District #7, I am writing to provide comment regarding the proposed installation by Weis Tower LLC. Our district has experienced longstanding communication challenges in the surrounding area, which have at times impacted operational efficiency and responder safety.

Given these concerns, we strongly recommend that Weis Tower LLC coordinate directly with Kittcom to explore opportunities for co-locating a radio repeater on the proposed structure. Improved radio coverage in this region would significantly enhance emergency communications and contribute to safer and more reliable response capabilities for all first responders operating in the area.

We appreciate the opportunity to provide input on this project and encourage continued collaboration to ensure that critical public safety communication needs are considered as part of the installation process.

Please feel free to contact me if additional information or discussion would be helpful.

Sincerely,

Aaron Lowe
