Hello Jamey,

This consult is in reference to CP-24-00003 Flying A. This undertaking involves a catastrophic amount of proposed ground disturbing activities that are related to residential development and associated infrastructure. This would result in the complete destruction of yet unknown cultural resources.

This undertaking is located outside the CCT Traditional Territories. We request any undertakings, particularly those involving ground disturbing activities, to have an IDP in place prior to implementation.

There are known cultural resources of historic significance nearby and this particular plat is mottled with Moderately Low to Very High Risk for an inadvertent discovery according to the DAHP predictive model.

CCT requests a cultural resource survey and that during implementation that there be an inadvertent discovery plan or (IDP) in place to ensure compliance with all Section 106 and relevant cultural resource laws both federally and to the state of Washington.

Thank you for consulting with the Colville Confederated Tribes History and Archaeology Program.

On behalf of Guy Moura, Tribal Historic Preservation Officer.

Sincerely,

Connor Armi | **Archaeologist Senior MA, RPA**
