Re: Fowler Creek Guest Ranch (CU-23-00003)

My name is Barry Hanson and I live in the Granite Creek subdivision which adjoins the proposed project.

I am submitting this notice of opposition to highlight the lack of specifics on the sewage treatment plan.

I'm concerned that with 2 wetland areas and 2 streams that the plan needs to have a lot more detail. With the potential for 6620 gallons per day of drainage seeping into the ground, knowing specifically where the drain fields would be located is critical. How far away from the wetlands or streams do you have to be with a drainfield to ensure no contamination? Is it even possible to locate drain fields on the proposed site and be far enough away from the wetlands to ensure no contamination?

Thank you for your consideration of my opposition to the proposed Fowler Creek Guest Ranch.

Respectfully,
Barry Hanson
Granite Creek
