**Subject:** [EXTERNAL] RE: Schnebley Coulee Site Visit WDFW Notes on Stream Typing

It was good to meet you all yesterday.

Here is an email that you can send to the county regarding the stream typing.

On November 29, 2023, Scott Downes of WDFW visited the northern portion of the Schnebley Coulee project site to examine the typing of the streams shown on the map, referred to as ephemeral drainages 1, 2 and 3 below. We found no indication of a defined bed or banks for these drainages. There were no perennial springs. Thus they do not meet the definition of Typed waters-Ns, Np or F. It is possible they have some small localized snowmelt and hydrology should be examined but they do not meet typed waters.
