Chace,

Sending in the following comment on this application from PSE:

Based on the location of the proposed solar farm it seems likely that the generation project may need to connect to Puget Sound Energy's transmission system in the vicinity. Project managers at Invenery/the relevant organization coordinating the proposed solar farm project should be sure to reach out to PSE's Transmission Planning and Engineering groups at [TransmissionDesign@pse.com](mailto:TransmissionDesign@pse.com) to plan for integration into PSE's network as needed.

Thanks,

**Dylan Marcus (He/Him)**
