Re: Wallace Ranch Water System; ID #AE335; Kittitas County
Second Draft Water System Plan; DOH Project # 24-0901

Dear Charles Marshall:

Thank you for the opportunity to review the above referenced Water System Plan (WSP), received on April 25, 2025. Consistent with the Memorandum of Understanding between the Department of Health (DOH) and Department of Ecology (Ecology), regarding joint review and approval of WSPs, this letter is being sent to your office with Ecology's comments. Specific elements of the WSP review included the Water Rights Self-Assessment as well as additional water rights documentation, including Ecology's water right files and previous WSPs and project reports, as applicable.

Ecology notes that the annual quantity noted in the WSP for Water Right Permit No. G4-36094 (G4-36094) is incorrect. The correct annual quantity for G4-36094 is 43.82 acre-feet/year.

If the annual quantity stated in the report is edited to the correct value of 43.82 acre-feet/year, then Ecology does not identify any issues of concern during review of the WSP and/or supplemental documentation.
