Bradley,

Thank you for the call and to explain what you were looking for to answer the noted bullet point #10 on the application. I had tried to address this in the building and site narrative sent with the application. To better answer the topics I have attached an updated project narrative with some new language in the last paragraph of the narrative under the section: Site Improvements and Public Safety.

I believe this paragraph should answer why this project will not in any way cause any of the following (listed on the application):

- Be detrimental to the public health, safety, and general welfare
- Be injurious to the property or improvements adjacent to, and in the vicinity of, the site upon which the proposed use is located
- Adversely affect the established character of the surrounding vicinity

Please advise if you need any additional information to approve the application and start the review process.

Thank you,

Erik Perka

Good Afternoon,

Attached you will find correspondence regarding the Public Facilities Permit application PF-26-00001 CWU Aviation as a follow-up to our conversation. Please let me know if you have any questions.

Best,
Bradley
