Hi Anna,

I will get this to Jamey.

Thanks,

Gail Weyand

Certified Permit Technician
Kittitas County Community Development
411 N Ruby Street, Suite 2
Ellensburg, WA 98926
(P)509-962-7506

Subject: Parke Creek Landing

CAUTION: This email originated from outside the Kittitas County network. Do not click links, open attachments, fulfill requests, or follow guidance unless you recognize the sender and have verified the content is safe.

The potential environmental and logistical implications of the Parke Creek Landing development are significant. If allowed to proceed, it would serve to destroy and/or abuse our rural landscape and create an eyesore that would do nothing to serve our local community and everything to harm our wildlife, our fragile ecosystem, and our rural way of life.

The arguments against solar energy farms and their impact on the land are numerous. The effect such a development would have on local families, who chose to live in rural areas in order to steward a native landscape and maintain an agricultural and rural way of life, is profound. The effects on the elk, the wildlife, and the delicate shrub steppe ecosystem from the solar farm, the ORV courses, and the trailer park cannot be overstated. Anyone who actually thinks that this is a good idea clearly has no understanding or appreciation of the things that I have mentioned and should therefore, in no way, be involved in the decision-making process. It's time that the people who serve this community at the county level, start protecting our land and way of life from those who would rather exploit the land than steward it.

Please do not allow this plan to proceed.

Sincerely,
Anna Collins
