Hi Jamey,

Thanks for reaching out, and with such great news! NRCS provided this signed environmental evaluation worksheet. They found that the project "is a federal action ALL of which is categorically excluded from further environmental analysis AND there are no extraordinary circumstances as identified in Section "P"." Attached is NRCS's decision and the latest Fogarty Ditch EWP drawings.

I hope to get to the shoreline exemption permit next week. Let me know if there is any more information I can provide.

Thank you,
Emma

Hello Emma,

I apologize for missing the meeting this morning, I misread the location of the meeting and didn't realize where it was held until it was too late to make it.

I talked to Samantha Cox since she attended the meeting, the question I have is did you already complete a NEPA review for your project? If so that will take the place of a SEPA review and the only permitting we will need to complete from my office would be the Shoreline Exemption permit.

I will be out of the office this afternoon and returning tomorrow, Thanks Jamey
