Good Afternoon, Ellie

I was able to apply a previous CRS to the project area (1697494), so attached please find a letter from DAHP concurring with the findings, results and recommendations from the Cultural Resources Survey (CRS) entitled “CRS for the Yakima Basin Integrated Plan Kachess Drought Relief Pumping Plant Transmission Line; Kittitas County WA,” (Camuso et al. 2020). As no cultural resources lie within the project area, no further direct archaeological supervision of the project is required; however, eligible site 45KT04383 lies immediately to the west of the Aol. In the event the project scope begins to drift toward the site, a barrier fence that is easily seen must be constructed to protect that site boundary. It is strongly advised that an Inadvertent Discovery Plan (IDP) is followed, with a copy kept onsite at all times, and having all crew members briefed on IDP procedures.

Please note this is only the opinion of DAHP and Affected Tribes may have access to proprietary information unavailable to DAHP at the time of this writing. Comments from Tribal Cultural Services departments or significant changes to project design may require review of this decision.

If you have any questions please feel free to contact me.

All Best

James
