Hello Bradley,

This consult is in reference to SP-24-00007 Davenport. This undertaking involves no ground disturbance at this time but is likely in preparation for it.

This undertaking is located within the CCT Traditional Territories. We request any undertakings, particularly those involving ground disturbing activities, to have an IDP in place prior to implementation.

The proposed project lies within the traditional territories of the Moses-Columbia Tribe, 1 of the 12 constituent tribes of the Confederated Tribes of the Colville Reservation (CTCR), which is governed by the Colville Business Council (CBC). The CBC has delegated to the Tribal Historic Preservation Officer (THPO) the responsibility of representing the CTCR with regard to cultural resources management issues throughout the traditional territories of all of the constituent tribes under Resolution 1996-29. This area includes parts of eastern Washington, northeastern Oregon, the Palus territory in Idaho, and south-central British Columbia.

There are known cultural resources of pre contact and historic significance nearby and this particular plat is considered High to Very High Risk for an inadvertent discovery according to the DAHP predictive model.

Additionally, there are four known TCPs nearby the proposed plat division. TCPs are places important to the CTCR for the preservation and continuation of the community's traditional lifestyle. TCPs can be, but are not limited to, religious areas, sacred areas, resource gathering areas (plant, animal, fish, and mineral), places associated with stories and legends, archaeological and ethnographic sites, habitation sites, camp sites, pictograph and petroglyph locations, special use sites, trails, and places with Indian names. For native people, natural resources are cultural resources. Traditional cultural plant resources are not only cherished for fiber, food, medicine, and building material, but are an intrinsic aspect of indigenous sovereignty; these plants link the people of the present to the people of the past.

CCT requests a cultural resource survey and that during implementation that there be an inadvertent discovery plan or (IDP) in place to ensure compliance with all Section 106 and relevant cultural resource laws both federally and to the state of Washington.

Thank you for consulting with the Colville Confederated Tribes History and Archaeology Program.

On behalf of Guy Moura, Tribal Historic Preservation Officer.

Sincerely,

Connor Armi | Archaeologist Senior MA, RPA
