Hello,

This review is in response to the notice of application **SP-25-00006 Deatherage** for a short plat division between two existing structures at 1021 and 1051 Watson Rd., Ellensburg, WA.

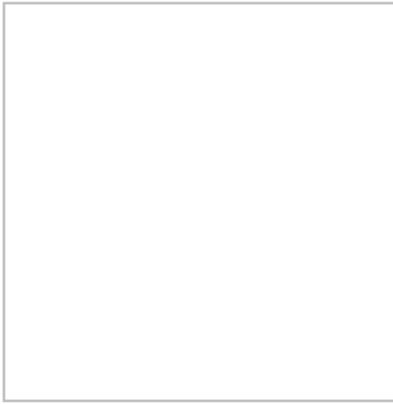

Please be advised, this project area is within the traditional territories of the Moses-Columbia, 1 of the 12 constituent tribes of the Confederated Tribes of the Colville Reservation (CTCR), which is governed by the Colville Business Council (CBC). The CBC has delegated to the Tribal Historic Preservation Officer (THPO) the responsibility of representing the CTCR with regard to cultural resources management issues throughout the traditional territories of all of the constituent tribes under Resolution 1996-29. This area includes parts of eastern Washington, northeastern Oregon, the Palus territory in Idaho, and south-central British Columbia.

This area has also been determined to be at very high risk for having cultural resources as determined by the predictive model of Washington State's Department of Archaeology and Historic Preservation (DAHP) and has had no cultural resource survey recently (within the past 10 years)

In considering the above, but given that the proposed undertaking does not involve ground disturbing activities, we respectfully recommend that the proponent complete and have on hand an Inadvertent Discovery Plan (IDP) during the course of work.

Thank you,
