

Kittitas County Fire Protection District #6 wants to install an LED sign for public information to the citizens in the area and ones that come to visit our county i.e. Avalanche danger, Wildfire closures, Water Danger BURN Ban notices etc.

The sign will be located on the northern edge of the property (Tax ID 957405) 14030 Salmon la Sac Rd. This will be an LED sign with the options of different messages. The sign will turn off at night and turn back on in morning. The brightness can be adjusted and controlled. Overall sign cabinet measures 4' 2" x 8' 5".

The electrical portion of the sign will be performed by Catlin Electrical from Ellensburg. All groundwork will be performed by KCFPD#6 and concrete will come from ECP.

The base for the sign will be 6ft H x 2ft W x 6ft L for a total of 3.11 cubic yard weighing 12,600 lbs. Total weight of the sign is 1400lbs. Sign anchor bolts are 30 inches long 3/4 inch in diameter. Anchor bolts will be attached to a grate 12" x 12" anchored in the concrete 30" deep.

Sign edge will be 11ft from property line closest to Salmon la Sac Rd. 37 ft from property line to the north, 51 ft from entrance/exit of north property. Sign edge will be 45 ft from center line of Salmon la Sac rd.
