They have an individual well that is serving just this parcel alone. So an individual well and yes Bradley the Adequate water has been submitted for this project and was approved in September.

If there is anything else please let me know.

Hi Russel,

Under 3(b)(1) the applicant states "Well is located on the western property boundary, will be used for drinking water and for watering lawn/garden, as well as water future animals. Approx less than 5,000gal/day". Whether it's a private well, public water system or how many homes it serves, I can't say with certainty.

Melissa, do you have access to this information for Russel? If so, can you share it with us? Thank you.

Best,
Bradley

Mr. Gasawski:

The Department of Health (DOH) Office of Drinking Water (ODW) has two initial questions:

1. Under Utilities in the SEPA checklist, the applicant indicates “water” is currently available on-site – what is the source of water: a private well or a public water system?
2. Depending on the answer to the above:
 - If private well, does the existing private well serve any other homes?
 - If a public water system, what is the name of the public water system?

Thanks,
