Re: SE-26-00001 – Easton Travel Center I strongly oppose this project. The deficient traffic analysis fails concurrency standards and conflicts with the STEER I-90 Study. It poses serious risks to groundwater in a CARA, adds dangerous traffic in heavy snow zones, strains emergency services, and damages the rural character of Easton. I request a Determination of Significance and full EIS, or denial of the application."

Thank you for standing up for our community, safety, and environment. Every comment matters!
