CAUTION: This email originated from outside the Kittitas County network. Do not click links, open attachments, fulfill requests, or follow guidance unless you recognize the sender and have verified the content is safe.

To whom it may concern,

I strongly oppose this project. The deficient traffic analysis fails concurrency standards and conflicts with the STEER I-90 Study. It poses serious risks to groundwater in a CARA, adds dangerous traffic in heavy snow zones, strains emergency services, and damages the rural character of Easton. I request a Determination of Significance and full EIS, or denial of the application.

Best regards,
Morghan Nass
