Hello Chace,

This consult is in reference to AU-24-00001 Baca McAfee. This undertaking involves ground disturbance related to residential home construction and associated infrastructure.

This undertaking is located within the CCT Usual and Accustom Territories. We request any undertakings, particularly those involving ground disturbing activities, to have an IDP in place prior to implementation.

The proposed project lies within the usual and accustom territories of the Wenatchee Tribe, 1 of the 12 constituent tribes of the Confederated Tribes of the Colville Reservation (CTCR), which is governed by the Colville Business Council (CBC). The CBC has delegated to the Tribal Historic Preservation Officer (THPO) the responsibility of representing the CTCR with regard to cultural resources management issues throughout the traditional territories of all of the constituent tribes under Resolution 1996-29. This area includes parts of eastern Washington, northeastern Oregon, the Palus territory in Idaho, and south-central British Columbia.

There are known cultural resources of historic significance nearby and this particular plat is considered Very High Risk for an inadvertent discovery according to the DAHP predictive model.

CCT requests a cultural resource survey and that during implementation that there be an inadvertent discovery plan or (IDP) in place to ensure compliance with all Section 106 and relevant cultural resource laws both federally and to the state of Washington.

Thank you for consulting with the Colville Confederated Tribes History and Archaeology Program.

On behalf of Guy Moura, Tribal Historic Preservation Officer.

Sincerely,

Connor Armi | **Archaeologist Senior MA, RPA**
