Ms. Myers:

The Department of Health (DOH) Office of Drinking Water (ODW) has reviewed the application generating the following comments:

1. Based on the narrative, a single groundwater well will be serving the primary residence and the second residence on the property. By regulatory definition, a single well serving two homes is not a public water system.
2. If a third residence or other connection using water is connected to this same well, then that meets the definition of a public water system – and the applicant would need to complete a Group B water system application.
3. Kittitas County Health exclusively administers Group B water systems.

If anyone has any questions, please contact DOH, thanks,

Russell E. Mau, PhD, PE
