181700.02 Rev1 60" TO 90" SS WDSOT Hyak, WA Mod Dwg"s, PSERN (Revised 02....pdf

## Dusty,

Attached is the structural analysis report and modification drawings (which are already included in the construction drawings in the ACUP application).

Please let me know if this will be sufficient and I will send a revised narrative addressing the issues.

Thank you

Bryson Burghardt

Bryson,

Send me what you have, and we can review to determine whether it is sufficient.

Thanks.

Dusty

Thanks, Dusty.

Will a stamped structural engineering report satisfy the request for the "engineering letter demonstrating that the design will prevent the structure from falling onto neighboring properties?" The report analyzes wind load, seismic shear, foundation loads, and other factors in determining structural adequacy and compliance with current engineering design standards.

I will also submit the structural report along with the building permit application. Please let me know.

## Thank you

Bryson Burghardt

Greetings. Find attached a request for additional information in regard to the permit. Hard copies are en route via US Mail.

Thanks.
