RE: BL-17-000024 Galloway Boundary Line Adjustment

To whom it may concern,

Thank you for submitting the application for a Boundary Line Adjustment. As proposed, we cannot process the application. Kittitas County Code (KCC) 16.04.25 reads:

"No lot created through the provisions of this Title or adjusted through the boundary line adjustment process shall contain more than one land use zone classification. ([Ord. 2014-015](#), 2014;)"

Further, KCC 16.10 reads:

A boundary line adjustment is an acceptable means of transferring land between abutting legally created parcels, provided:

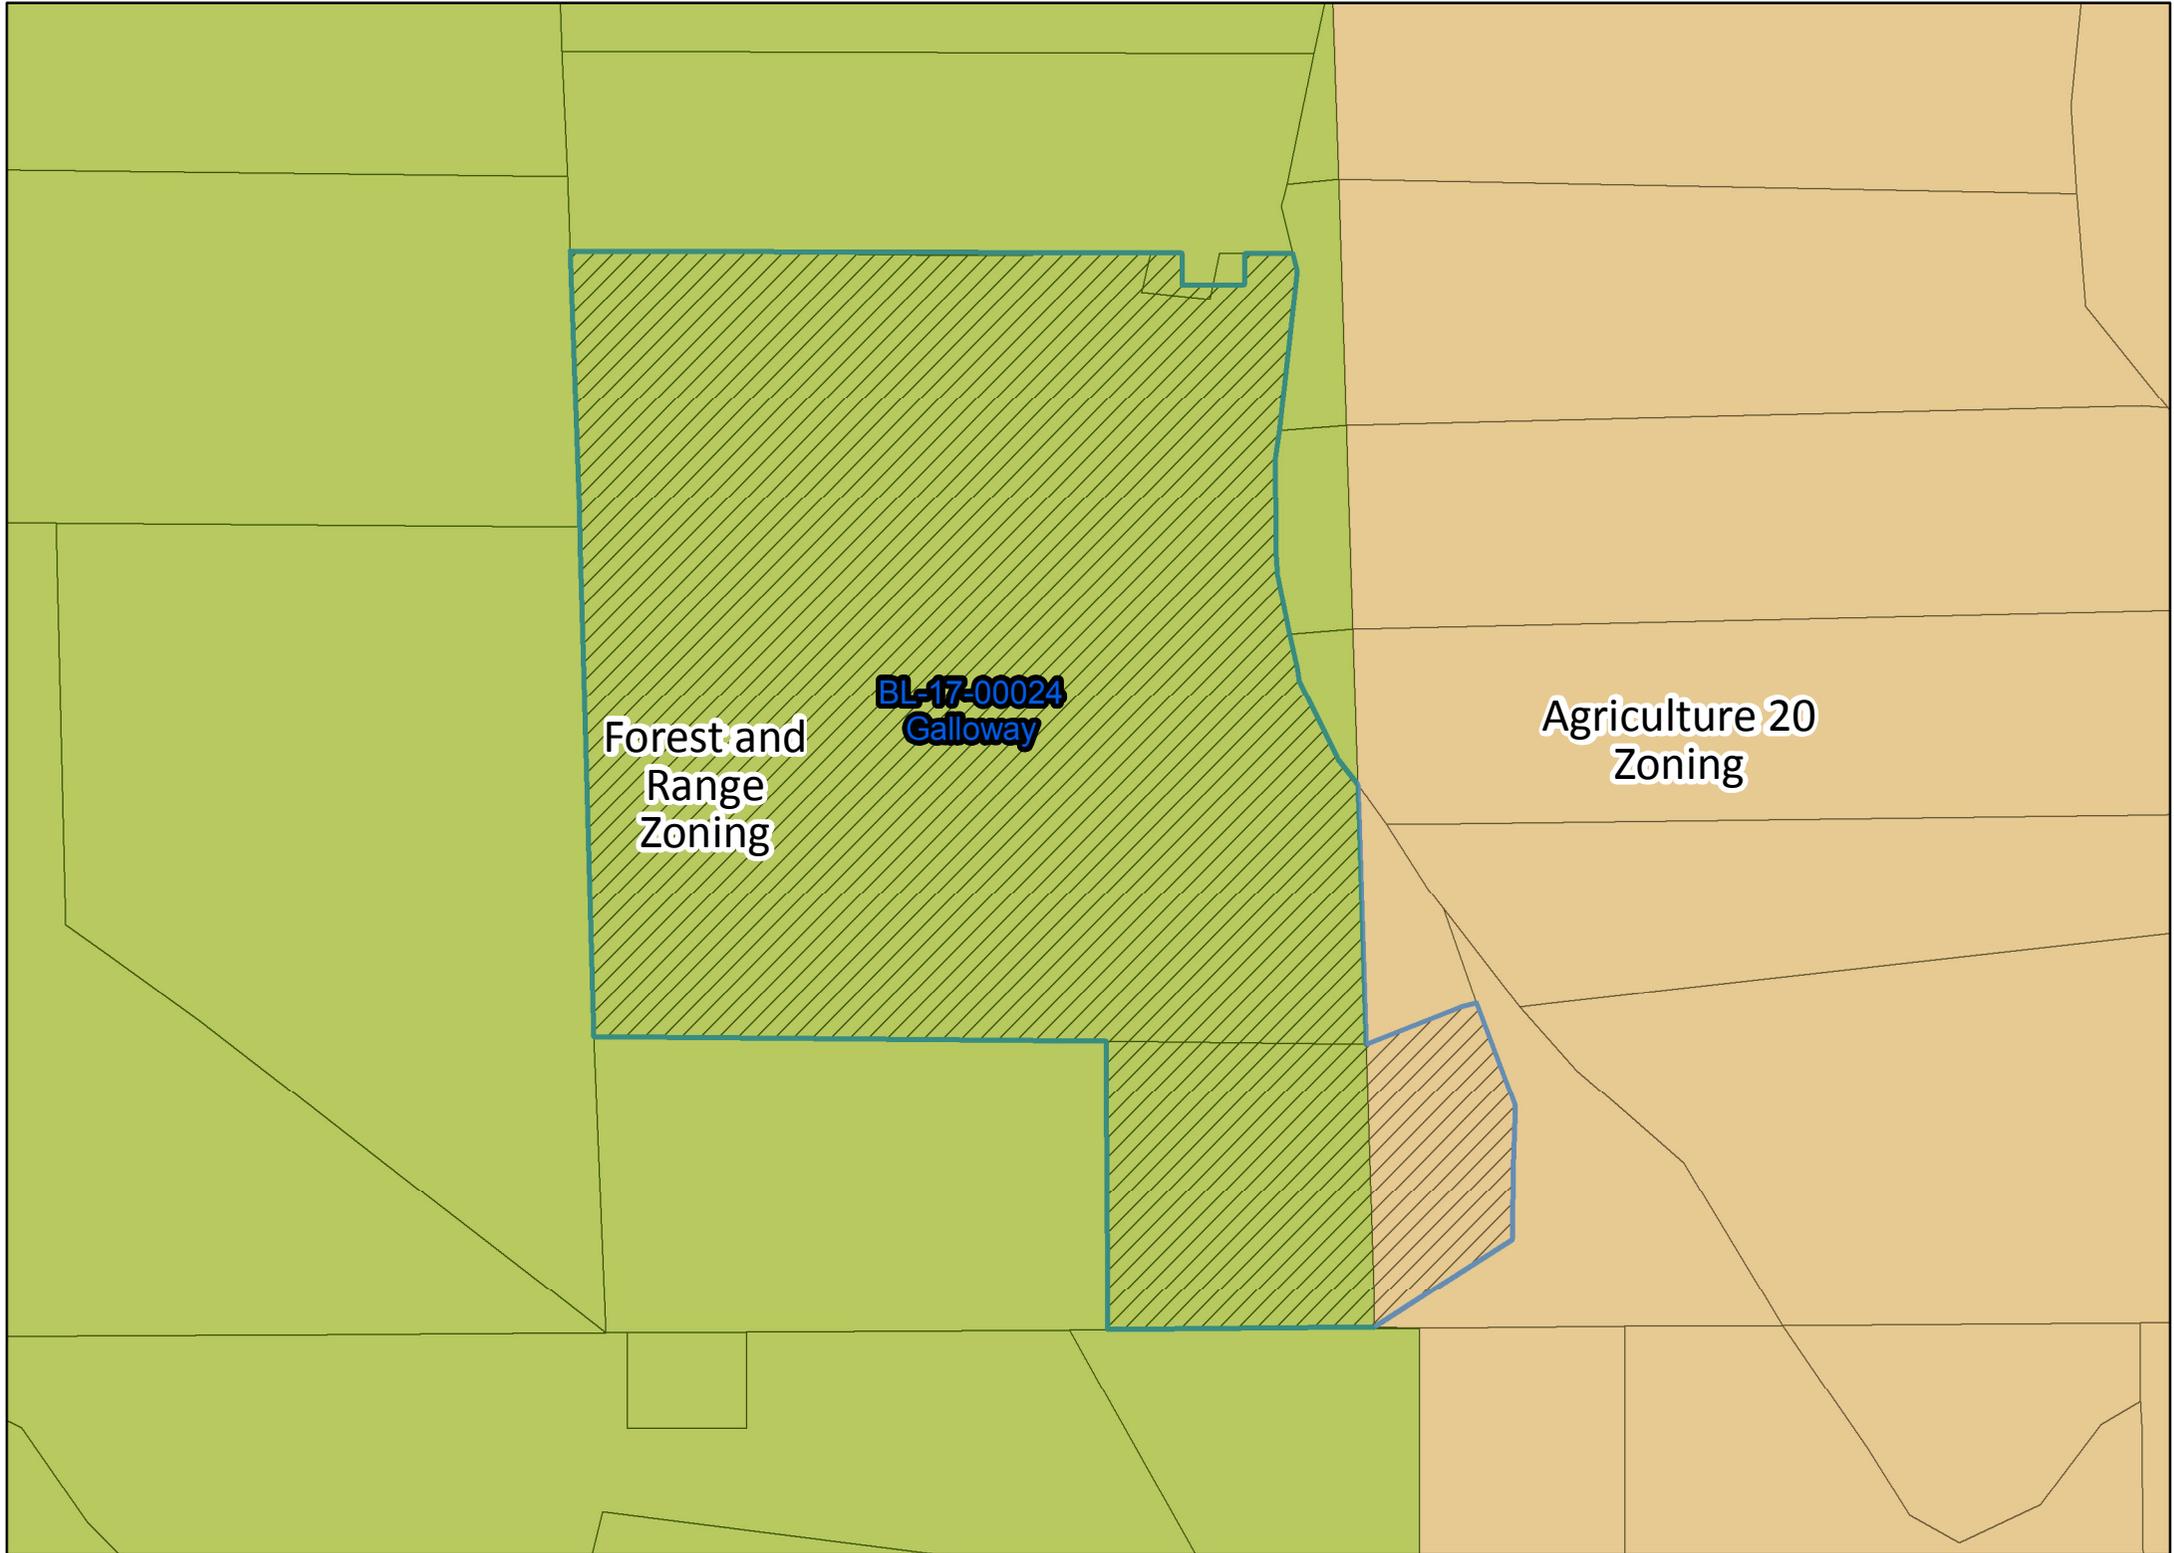

- 1. No additional lots, parcels or tracts are created as part of the transfer;*
- 2. No lot that currently conforms to minimum area and dimension regulations shall be adjusted so as to become nonconforming; and*
- 3. No nonconforming lot shall be adjusted in a manner that increases the nonconformity.*
- 4. No parcels with split zoning are created as a part of the transfer per KCC Chapter [16.04.025](#).*

As the attached map indicates, the boundary between parcels 384236 and 837634 runs along the border of the Agriculture 20 and Forest and Range zones. If the parcel boundaries were adjusted as depicted on the site plan submitted, the new parcel 2C would be a split zone parcel.

Please submit a revised site plan showing a parcel configuration consistent with these provisions, and Community Development Services can continue processing the application.

Sincerely,

Dusty Pilkington

Hello Dusty,

Thank you for your correspondence.

The determination of a "incomplete application" by KCCDS comes as a surprise for the following reasons:

1. Our interpretation of the county code for BLA is that the adjusted parcels shall not contain more than one land use classification. In this case all the parcels involved in the application are classified under land use as "rural working".
2. We discussed the application over the counter with a planner at KCCDS prior to submittal and they indicated that parcels with multiple zone classifications would not affect the project approval.
3. One of parcels involved, APN 384236/394236, already contains area(s) with more than one zone.
4. The current zone classifications were created by the County and don't necessarily conform the current ownership and/or current use of the properties in the area.

We urge you to take another look and reconsider the determination.

Thank you for your consideration.

Dustin Pierce, P.L.S.

Holly,

I just realized that issue this morning. You should have a new email regarding BL-17-00021 Teanaway with the proper link and a deadline of 03/03/2017. And BTW, Galloway is on hold pending some changes to make it consistent with zoning. In any case, here is a link to [BL-17-00021 Teanaway](#), and I will forward these concerns to the applicant for Galloway, BL-17-00024.

Dusty,

When I click on this link it comes up as Galloway BL-17-00024. I have some comments on the BL-17-00024:

1. There is an existing wellhead near the proposed property line between parcels 2B and 2C that is not shown in the Encompass drawing. According to the records I have, the well head not shown looks like it is right next to the proposed property line which is following a fence line. I will need this existing wellhead included in a drawing. The proposed property line has to be at least 50 feet from the existing well.
2. I also need to see the location of the existing drainfield for the house on the proposed parcel 2B. It is also not shown.

I will email to you the drawing I have so you can see what I am looking at that exists. The reason I have this information is that in 2005 I approved a farm exemption for this property and have drawings from that application to verify my concerns with this application.

Thank you,

Holly
