Good afternoon Zach,

We can certainly add the dimensions as requested however, the Tumble Creek development is served by a Class A potable water system and a Sanitary Sewer system. As such, there are no wells, or septic/drainfields on these properties.

Regards,

Dustin Pierce, PLS

Dear applicant,

We are processing your Boundary Line Adjustment and we are going to need some additional materials added to your site plan in order to be able to deem your application “complete” and move forward with the process of reviewing it with other departments.

Please add the following elements to your site plan:

Distances to proposed boundary lines from all existing structures.

- Well heads and septic systems/drainfields also need to be represented on the map.

Let me know if you have further questions.

Zach Torrance-Smith
