Hi, Lindsey, John here re Burbank housing parking area mod. Brenda and Christina have reviewed and ok'd change from a circular parking area at east end by existing orchard road, to a service/parking road along south side of the units connecting the two existing orchard roads; this'll better facilitate access for emergency vehicles and provide a larger fire protection zone around the units. Do you see any problems with this modification to the cu site plan? Pls advise.  
Cordially, JohnC
