This letter is submitted in response to the proposed campground located at Kittitas County on Parcel Nos. [636935](#), [136935](#), 960269m and 960270.

Reclamation is currently working with Mr. Jackson and our partners to mitigate a spring box on his property that will be impacted by the Cle Elum Pool Raise Project. Planned mitigation is to compensate the landowner with a new well and decommission the "spring box" which will continue to provide water for the existing residence.

The proposed development will require mitigation for a water right that is outside the scope of the 2015 Cle Elum Pool Raise Project Environmental Impact Statement.

Roza holds a water right with a May 10, 1905 priority date (known as a proratable right) Roza desires to memorialize that any impacts to the proposed development would be beyond the scope of the Cle Elum Pool Raise Project and will not be mitigated by USBR or others.

Scott Revell
