Office (509) 962-7506

Fax (509) 962-7682

"Building Partnerships - Building Communities"

SHORELINE PERMITTING

(For projects located within 200 feet of a body of water under the jurisdiction of the Shoreline Master Program)

The following bodies of water are under the jurisdiction of the Shoreline Master Program: (*denotes portion of shoreline requiring 200' setback)

Little Creek	Lake Keechelus	Lake Kachess*
Cabin Creek	Lake Cle Elum	Lake Easton
Log Creek	Lost Lake*	Cle Elum River
Swauk Creek	Unnamed Lakes (T21,R12)*	Columbia River*
Wilson Creek (S. of Ellensburg)	Tucquala Lake*	Yakima River*
Naneum Creek	Cooper Lake*	Kachess River
Taneum Creek	Manastash Lake*	Teanaway River (Includes: Manastash Creek (Includes S. West, Middle, North Forks)
Fork)		
Big Creek		

The County uses the **Joint Aquatic Resources Permit Application (JARPA)** form for all applications located within the jurisdiction of the Shoreline Management Plan, including projects within 200' of the bodies of water listed above. For reference, the first page of the 2010 JARPA is attached to this cover sheet.

To apply for a Shoreline Permit, please submit a **completed** JARPA form along with this cover letter.

You may request a copy of the JARPA form from Community Development Services, or download the form here: http://www.epermitting.wa.gov/site/alias__resourcecenter/jarpa_jarpa_form/9984/jarpa_form.aspx

Please check the box next to the type of shoreline permit you are requesting:

- Shoreline Structural Setback Variance (**Fee:** \$1,520 to CDS)
- Shoreline Substantial Development Permit (**Fee:** CDS: \$1,560+ SEPA, if not exempt: \$560 (CDS: \$490, PW: \$70))
- Shoreline Conditional Use Permit (**Fee:** CDS: \$1,560+ SEPA, if not exempt: \$560 (CDS: \$490, PW: \$70)), if not processed together with a Shoreline Substantial Development Permit)
- Shoreline Exemption
- Other (please define): _____

APPLICATION FEES:

(see above) Kittitas County Community Development Services (KCCDS)

(see above) Kittitas County Department of Public Works

(see above) **Total fees due for this application** (One check made payable to KCCDS)

FOR STAFF USE ONLY

Application Received By (CDS Staff Signature): 	DATE: 	RECEIPT # 	<div style="border: 2px solid black; padding: 5px; width: fit-content; margin: 0 auto;"> <p style="font-size: 1.2em; margin: 0;">RECEIVED</p> <p style="margin: 0;">AUG 06 2012</p> <p style="margin: 0;">KITTITAS COUNTY CDS</p> </div> <p style="font-size: 0.8em; margin-top: 5px;">DATE STAMP IN BOX</p>

KITITITAS COUNTY

Date received: _____

Agency reference #: SX-12-00009

Tax Parcel #(s): _____

Part 1—Project Identification

1. Project Name (A name for your project that you create. Examples: Smith's Dock or Seabrook Lane Development) [help]
PSE Circuit CLE-13, Electrical Distribution System Reinforcement and Avian Protection Improvements

Part 2—Applicant

The person and/or organization responsible for the project. [\[help\]](#)

2a. Name (Last, First, Middle)			
Strauch, Brad			
2b. Organization (If applicable)			
Puget Sound Energy			
2c. Mailing Address (Street or PO Box)			
P.O. Box 97034 PSE-09N			
2d. City, State, Zip			
Bellevue, WA 98009-9734			
2e. Phone (1)	2f. Phone (2)	2g. Fax	2h. E-mail
(425) 456-2556	()	(425) 462-3223	bradley.strauch@pse.com

¹Additional forms may be required for the following permits:

- If your project may qualify for Department of the Army authorization through a Regional General Permit (RGP), contact the U.S. Army Corps of Engineers for application information (206) 764-3495.
- If your project might affect species listed under the Endangered Species Act, you will need to fill out a Specific Project Information Form (SPIF) or prepare a Biological Evaluation. Forms can be found at http://www.nws.usace.army.mil/PublicMenu/Menu.cfm?sitename=REG&pagename=mainpage_ESA
- Not all cities and counties accept the JARPA for their local Shoreline permits. If you need a Shoreline permit, contact the appropriate city or county government to make sure they accept the JARPA.

²To access an online JARPA form with [\[help\]](#) screens, go to http://www.epermitting.wa.gov/site/alias_resourcecenter/jarpa_jarpa_form/9984/jarpa_form.aspx.

For other help, contact the Governor's Office of Regulatory Assistance at 1-800-917-0043 or help@ora.wa.gov.

Part 3—Authorized Agent or Contact

Person authorized to represent the applicant about the project. (Note: Authorized agent(s) must sign 11b of this application.) [\[help\]](#)

3a. Name (Last, First, Middle)			
3b. Organization (If applicable)			
3c. Mailing Address (Street or PO Box)			
3d. City, State, Zip			
3e. Phone (1)	3f. Phone (2)	3g. Fax	3h. E-mail
()	()	()	

Part 4—Property Owner(s)

Contact information for people or organizations owning the property(ies) where the project will occur. Consider both **upland and aquatic** ownership because the upland owners may not own the adjacent aquatic land. [\[help\]](#)

- Same as applicant. (Skip to Part 5.)
- Repair or maintenance activities on existing rights-of-way or easements. (Skip to Part 5.)
- There are multiple upland property owners. Complete the section below and fill out JARPA Attachment A for each additional property owner.
- Your project is on Department of Natural Resources (DNR)-managed aquatic lands. If you don't know, contact the DNR at (360) 902-1100 to determine aquatic land ownership. If yes, complete JARPA Attachment E to apply for the Aquatic Use Authorization.

4a. Name (Last, First, Middle)			
4b. Organization (If applicable)			
4c. Mailing Address (Street or PO Box)			
4d. City, State, Zip			
4e. Phone (1)	4f. Phone (2)	4g. Fax	4h. E-mail
()	()	()	

Part 5–Project Location(s)

Identifying information about the property or properties where the project will occur. [\[help\]](#)

- There are multiple project locations (e.g. linear projects). Complete the section below and use [JARPA Attachment B](#) for each additional project location.

5a. Indicate the type of ownership of the property. (Check all that apply.) [help]			
<input checked="" type="checkbox"/> Private <input type="checkbox"/> Federal <input type="checkbox"/> Publicly owned (state, county, city, special districts like schools, ports, etc.) <input type="checkbox"/> Tribal <input type="checkbox"/> Department of Natural Resources (DNR) – managed aquatic lands (Complete JARPA Attachment E)			
5b. Street Address (Cannot be a PO Box. If there is no address, provide other location information in 5p.) [help]			
See 5p			
5c. City, State, Zip (If the project is not in a city or town, provide the name of the nearest city or town.) [help]			
East of Cle Elum			
5d. County [help]			
Kittitas			
5e. Provide the section, township, and range for the project location. [help]			
¼ Section	Section	Township	Range
SE	20	19	17
5f. Provide the latitude and longitude of the project location. [help]			
<ul style="list-style-type: none"> Example: 47.03922 N lat. / -122.89142 W long. (Use decimal degrees - NAD 83) 			
47.1237 N Lat. / -120.7394 W Long.			
5g. List the tax parcel number(s) for the project location. [help]			
<ul style="list-style-type: none"> The local county assessor's office can provide this information. 			
151736			
5h. Contact information for all adjoining property owners. (If you need more space, use JARPA Attachment C.) [help]			
Name	Mailing Address		Tax Parcel # (if known)
N/A			

5i. List all wetlands on or adjacent to the project location. [\[help\]](#)

None known.

5j. List all waterbodies (other than wetlands) on or adjacent to the project location. [\[help\]](#)

Yakima River

5k. Is any part of the project area within a 100-year floodplain? [\[help\]](#)

Yes No Don't know

5l. Briefly describe the vegetation and habitat conditions on the property. [\[help\]](#)

The area around the replacement pole (P33) is used as a gravel parking lot, and is located south of SR10. The work at Pole 32, which is located north of a pump house and the railroad right-of-way, will entail replacement of the cross-arm and a transformer. The vegetation in the immediate vicinity of each pole is composed primarily of various grasses and shrubs.

5m. Describe how the property is currently used. [\[help\]](#)

The site is currently used as a utility easement, pump house, parking lots, railroad corridor, and state highway.

5n. Describe how the adjacent properties are currently used. [\[help\]](#)

The adjacent land is primarily undeveloped open land.

5o. Describe the structures (above and below ground) on the property, including their purpose(s) and current condition. [\[help\]](#)

There are electric distribution poles, a railroad corridor, parking lots, and a pump house on the property.

5p. Provide driving directions from the closest highway to the project location, and attach a map. [\[help\]](#)

From the West: Exit 85 (1st Street) off I-90, head north to SR10, then southeast on SR10 for approximately 9.5 miles to the pump house. The poles are located on the north and west sides of the pump house.

Part 6–Project Description

6a. Briefly summarize the overall project. You can provide more detail in 6b. [\[help\]](#)

Replace one pole (P33), one transformer located on Pole P32, and install longer cross-arms on both poles to provide better avian protection. Additionally a new conductor will be installed along the distribution circuit to accommodate the current and future system capacity demands and to improve and reliability.

6b. Describe the purpose of the project and why you want or need to perform it. [\[help\]](#)

Projected electrical demands and a new generation source in the project area have necessitated electrical system changes to ensure continued operation. Replacement of equipment is the common method of maintaining operation of the electrical system (WAC 173-27-040). To meet load demands and keep the system within operational parameters, an additional conductor (wire) needs to be added to the electrical distribution system. While performing the conductor work, the cross-arms located on the poles will be replaced with longer ones, to afford better avian protection along the Yakima River. Longer cross-arms provide greater spacing between the conductors, thereby reducing the potential for electrocution of avian species. The pole mounted transformer located on Pole P32, adjacent to the pump house, will be replaced to bring it up to current standards. Pole 33, located immediately south of SR10 to will be replaced to meet the system operational requirements.

6c. Indicate the project category. (Check all that apply) [\[help\]](#)

- Commercial
 Residential
 Institutional
 Transportation
 Recreational
 Maintenance
 Environmental Enhancement

6d. Indicate the major elements of your project. (Check all that apply) [\[help\]](#)

- | | | | |
|-----------------------------------------------|-----------------------------------------------|----------------------------------------------|--------------------------------------------------------|
| <input type="checkbox"/> Aquaculture | <input type="checkbox"/> Culvert | <input type="checkbox"/> Float | <input type="checkbox"/> Retaining Wall (upland) |
| <input type="checkbox"/> Bank Stabilization | <input type="checkbox"/> Dam / Weir | <input type="checkbox"/> Floating Home | <input type="checkbox"/> Road |
| <input type="checkbox"/> Boat House | <input type="checkbox"/> Dike / Levee / Jetty | <input type="checkbox"/> Geotechnical Survey | <input type="checkbox"/> Scientific Measurement Device |
| <input type="checkbox"/> Boat Launch | <input type="checkbox"/> Ditch | <input type="checkbox"/> Land Clearing | <input type="checkbox"/> Stairs |

| <input type="checkbox"/> Channel Modification | <input type="checkbox"/> Fishway | <input type="checkbox"/> Raft | |

Other:

6e. Describe how you plan to construct each project element checked in 6d. Include specific construction methods and equipment to be used. [\[help\]](#)

- Identify where each element will occur in relation to the nearest waterbody.
- Indicate which activities are within the 100-year floodplain.

Pole 33 will be replaced by setting a new pole immediately adjacent to the existing pole. This will be done, by using an auger to drill the hole and then the new pole placed in the hole. The annulus will be backfilled with gravel and the equipment and conductor transferred from the old pole's cross-arm to the new one.

Replacement cross-arms will be installed on poles P33 and P32 and the existing and new conductor attached. At the same time, the transformer located on P32 will be replaced with a new one to bring the system up to operational standards. This work will be accomplished using a standard utility bucket truck. No earthwork will occur at P32, which is the closest pole to the river and minimal earthwork is anticipated as part of the Pole P33 replacement. In addition, Pole P33, is situated in a gravel parking area, so vegetation disturbance will be kept to a minimum.

The additional conductor will be installed along the circuit, including across the Yakima River. Typically new conductor is installed across water bodies by shooting a pull rope across the river using a bow and arrow. The rope is then brought up the pole and placed into a traveler (single pulley attached to the cross-arm). With the other end of the rope connected to the conductor, the conductor is then pulled into place.

No new structures will be placed in the 100-year flood plain; therefore, no flood flow impacts will result.

6f. What are the anticipated start and end dates for project construction? (Month/Year) [\[help\]](#)

- If the project will be constructed in phases or stages, use [JARPA Attachment D](#) to list the start and end dates of each phase or stage.

Note: Actual work will take less than 1 week to complete, but actual start date is unknown at this time.

Start date: August 13, 2012 End date: October 26, 2013 See JARPA Attachment D

6g. Fair market value of the project, including materials, labor, machine rentals, etc. [\[help\]](#)

>\$5,000

6h. Will any portion of the project receive federal funding? [\[help\]](#)

- If yes, list each agency providing funds.

Yes No Don't know

Part 7–Wetlands: Impacts and Mitigation

- Check here if there are wetlands or wetland buffers on or adjacent to the project area.
(If there are none, skip to Part 8.) [\[help\]](#)

7a. Describe how the project has been designed to avoid and minimize adverse impacts to wetlands. [help]						
<input type="checkbox"/> Not applicable						
7b. Will the project impact wetlands? [help]						
<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Don't know						
7c. Will the project impact wetland buffers? [help]						
<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Don't know						
7d. Has a wetland delineation report been prepared? [help]						
<ul style="list-style-type: none"> • If Yes, submit the report, including data sheets, with the JARPA package. 						
<input type="checkbox"/> Yes <input type="checkbox"/> No						
7e. Have the wetlands been rated using the Western Washington or Eastern Washington Wetland Rating System? [help]						
<ul style="list-style-type: none"> • If Yes, submit the wetland rating forms and figures with the JARPA package. 						
<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Don't know						
7f. Have you prepared a mitigation plan to compensate for any adverse impacts to wetlands? [help]						
<ul style="list-style-type: none"> • If Yes, submit the plan with the JARPA package and answer 7g. • If No, or Not applicable, explain below why a mitigation plan should not be required. 						
<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not applicable						
7g. Summarize what the mitigation plan is meant to accomplish, and describe how a watershed approach was used to design the plan. [help]						
7h. Use the table below to list the type and rating of each wetland impacted, the extent and duration of the impact, and the type and amount of mitigation proposed. Or if you are submitting a mitigation plan with a similar table, you can state (below) where we can find this information in the plan. [help]						
Activity (fill, drain, excavate, flood, etc.)	Wetland Name ¹	Wetland type and rating category ²	Impact area (sq. ft. or Acres)	Duration of impact ³	Proposed mitigation type ⁴	Wetland mitigation area (sq. ft. or acres)
¹ If no official name for the wetland exists, create a unique name (such as "Wetland 1"). The name should be consistent with other project documents, such as a wetland delineation report.						
² Ecology wetland category based on current Western Washington or Eastern Washington Wetland Rating System. Provide the wetland rating forms with the JARPA package.						
³ Indicate the days, months or years the wetland will be measurably impacted by the activity. Enter "permanent" if applicable.						
⁴ Creation (C), Re-establishment/Rehabilitation (R), Enhancement (E), Preservation (P), Mitigation Bank/In-lieu fee (B)						
Page number(s) for similar information in the mitigation plan, if available: _____						

7i. For all filling activities identified in 7h, describe the source and nature of the fill material, the amount in cubic yards that will be used, and how and where it will be placed into the wetland. [\[help\]](#)

7j. For all excavating activities identified in 7h, describe the excavation method, type and amount of material in cubic yards you will remove, and where the material will be disposed. [\[help\]](#)

Part 8–Waterbodies (other than wetlands): Impacts and Mitigation

In Part 8, “waterbodies” refers to non-wetland waterbodies. (See Part 7 for information related to wetlands.) [\[help\]](#)

Check here if there are waterbodies on or adjacent to the project area. (If there are none, skip to Part 9.)

8a. Describe how the project is designed to avoid and minimize adverse impacts to the aquatic environment. [\[help\]](#)

Not applicable

The amount of work has been minimized to the extent possible. Within the extent of the Yakima River Shoreline, the project entails replacing one pole, cross-arms, a transformer, and adding an additional conductor. None of this work requires in the water work; therefore, no impacts to the aquatic environment will occur.

8b. Will your project impact a waterbody or the area around a waterbody? [\[help\]](#)

Yes No

8c. Have you prepared a mitigation plan to compensate for the project's adverse impacts to non-wetland waterbodies? [\[help\]](#)

- If Yes, submit the plan with the JARPA package and answer 8d.
- If No, or Not applicable, explain below why a mitigation plan should not be required.

Yes No Not applicable

Project entails replacement of the existing system components. No impacts to the Yakima River have been anticipated; therefore, no mitigation is warranted. However, the maintenance activities have been designed to improve avian safety.

8d. Summarize what the mitigation plan is meant to accomplish. Describe how a watershed approach was used to design the plan.

- If you already completed 7g you do not need to restate your answer here. [\[help\]](#)

N/A

8e. Summarize impact(s) to each waterbody in the table below. [\[help\]](#)

Activity (clear, dredge, fill, pile drive, etc.)	Waterbody name ¹	Impact location ²	Duration of impact ³	Amount of material (cubic yards) to be placed in or removed from waterbody	Area (sq. ft. or linear ft.) of waterbody directly affected
N/A					

¹ If no official name for the waterbody exists, create a unique name (such as "Stream 1") The name should be consistent with other documents provided.

² Indicate whether the impact will occur in or adjacent to the waterbody. If adjacent, provide the distance between the impact and the waterbody and indicate whether the impact will occur within the 100-year flood plain.

³ Indicate the days, months or years the waterbody will be measurably impacted by the work. Enter "permanent" if applicable.

8f. For all activities identified in 8e, describe the source and nature of the fill material, amount (in cubic yards) you will use, and how and where it will be placed into the waterbody. [\[help\]](#)

N/A

8g. For all excavating or dredging activities identified in 8e, describe the method for excavating or dredging, type and amount of material you will remove, and where the material will be disposed. [help]

Approximately 3 cubic yards of material will be excavated during installation of the Pole P33. Typically, excavated spoils created during pole replacement are used to backfill the hole of the removed old pole.

Part 9—Additional Information

Any additional information you can provide helps the reviewer(s) understand your project. Complete as much of this section as you can. It is ok if you cannot answer a question.

9a. If you have already worked with any government agencies on this project, list them below. [help]

Agency Name	Contact Name	Phone	Most Recent Date of Contact
		()	
		()	
		()	

9b. Are any of the wetlands or waterbodies identified in Part 7 or Part 8 of this JARPA on the Washington Department of Ecology's 303(d) List? [help]

- If Yes, list the parameter(s) below.
- If you don't know, use Washington Department of Ecology's Water Quality Assessment tools at: <http://www.ecy.wa.gov/programs/wq/303d/>.

Yes No

9c. What U.S. Geological Survey Hydrological Unit Code (HUC) is the project in? [help]

- Go to <http://cfpub.epa.gov/surf/locate/index.cfm> to help identify the HUC.

17030001

9d. What Water Resource Inventory Area Number (WRIA #) is the project in? [help]

- Go to <http://www.ecy.wa.gov/services/gis/maps/wria/wria.htm> to find the WRIA #.

39

9e. Will the in-water construction work comply with the State of Washington water quality standards for turbidity? [\[help\]](#)

- Go to <http://www.ecy.wa.gov/programs/wq/swqs/criteria.html> for the standards.

Yes No Not applicable

9f. If the project is within the jurisdiction of the Shoreline Management Act, what is the local shoreline environment designation? [\[help\]](#)

- If you don't know, contact the local planning department.
- For more information, go to: http://www.ecy.wa.gov/programs/sea/sma/laws_rules/173-26/211_designations.html.

Rural Urban Natural Aquatic Conservancy Other _____

9g. What is the Washington Department of Natural Resources Water Type? [\[help\]](#)

- Go to http://www.dnr.wa.gov/BusinessPermits/Topics/ForestPracticesApplications/Pages/fp_watertyping.aspx for the Forest Practices Water Typing System.

Shoreline Fish Non-Fish Perennial Non-Fish Seasonal

9h. Will this project be designed to meet the Washington Department of Ecology's most current stormwater manual? [\[help\]](#)

- If No, provide the name of the manual your project is designed to meet.

Yes No

Name of manual:

9i. Does the project site have known contaminated sediment? [\[help\]](#)

- If Yes, please describe below.

Yes No

9j. If you know what the property was used for in the past, describe below. [\[help\]](#)

Utility and railroad corridors.

9k. Has a cultural resource (archaeological) survey been performed on the project area? [\[help\]](#)

- If Yes, attach it to your JARPA package.

Yes No

9l. Name each species listed under the federal Endangered Species Act that occurs in the vicinity of the project area or might be affected by the proposed work. [help]

According to SalmonScape, Spring Chinook, Coho, Summer Steelhead, and Bull Trout are located in the project area; however, no in-water work will occur, so impacts to these species will not occur.

9m. Name each species or habitat on the Washington Department of Fish and Wildlife's Priority Habitats and Species List that might be affected by the proposed work. [help]

Earthwork will occur in the gravel parking area located south of SR10 as a result of this project. As this area does not provided appropriate habitat for listed species, no impacts to such species or habitats will occur as a result of this project.

Part 10–SEPA Compliance and Permits

Use the resources and checklist below to identify the permits you are applying for.

- Online Project Questionnaire at <http://apps.ecy.wa.gov/opas/>.
- Governor's Office of Regulatory Assistance at (800) 917-0043 or help@ora.wa.gov.
- For a list of addresses to send your JARPA to, click on [agency addresses for completed JARPA](#).

10a. Compliance with the State Environmental Policy Act (SEPA). (Check all that apply.) [help]

- For more information about SEPA, go to www.ecy.wa.gov/programs/sea/sepa/e-review.html.

A copy of the SEPA determination or letter of exemption is included with this application.

A SEPA determination is pending with _____ (lead agency). The expected decision date is _____.

I am applying for a Fish Habitat Enhancement Exemption. (Check the box below in 10b.) [help]

This project is exempt (choose type of exemption below).

Categorical Exemption. Under what section of the SEPA administrative code (WAC) is it exempt?
WAC 197-11-800 (3) and (23).

Other: _____

SEPA is pre-empted by federal law.

10b. Indicate the permits you are applying for. (Check all that apply.) [\[help\]](#)

LOCAL GOVERNMENT

Local Government Shoreline permits:

- Substantial Development Conditional Use Variance
 Shoreline Exemption Type (explain): Maintenance and Repair of the Existing Facility

Other city/county permits:

- Floodplain Development Permit Critical Areas Ordinance

STATE GOVERNMENT

Washington Department of Fish and Wildlife:

- Hydraulic Project Approval (HPA) Fish Habitat Enhancement Exemption – Attach Exemption Form

Effective July 10, 2012, you must submit a check for \$150 to Washington Department of Fish and Wildlife, unless your project qualifies for an exemption or alternative payment method below. **Do not send cash.**

Check the appropriate boxes:

- \$150 check enclosed. (Check # _____)
Attach check made payable to Washington Department of Fish and Wildlife.
- Charge to billing account under agreement with WDFW. (Agreement # _____)
- My project is exempt from the application fee. (Check appropriate exemption)
 HPA processing is conducted by applicant-funded WDFW staff.
(Agreement # _____)
- Mineral prospecting and mining.
- Project occurs on farm and agricultural land.
(Attach a copy of current land use classification recorded with the county auditor, or other proof of current land use.)
- Project is a modification of an existing HPA originally applied for, prior to July 10, 2012.
(HPA # _____)

Washington Department of Natural Resources:

- Aquatic Use Authorization
Complete JARPA Attachment E and submit a check for \$25 payable to the Washington Department of Natural Resources.
Do not send cash.

Washington Department of Ecology:

- Section 401 Water Quality Certification

FEDERAL GOVERNMENT

United States Department of the Army permits (U.S. Army Corps of Engineers):

- Section 404 (discharges into waters of the U.S.) Section 10 (work in navigable waters)

United States Coast Guard permits:

- General Bridge Act Permit Private Aids to Navigation (for non-bridge projects)

Part 11—Authorizing Signatures

Signatures are required before submitting the JARPA package. The JARPA package includes the JARPA form, project plans, photos, etc. [\[help\]](#)

11a. Applicant Signature (required) [\[help\]](#)

I certify that to the best of my knowledge and belief, the information provided in this application is true, complete, and accurate. I also certify that I have the authority to carry out the proposed activities, and I agree to start work only after I have received all necessary permits.

I hereby authorize the agent named in Part 3 of this application to act on my behalf in matters related to this application. _____ (initial)

By initialing here, I state that I have the authority to grant access to the property. I also give my consent to the permitting agencies entering the property where the project is located to inspect the project site or any work related to the project. BS (initial)
