Exhibit #1

Narrative Project Description: Brown Road Estates, LLC

This is a proposed planned 9 Lot Preliminary Plat pursuant to Kittitas County Code 17.28A A5 (See Exhibit #2).

This property has a land use designation of Rural Residential and an Agriculture-5 (A-5) zoning designation, making the zoning compatible with the current land use designations mandated by state law.

The goal of this proposal is to provide building lots to individuals who want the opportunity to live in a rural setting of 5-acre lots. This proposal is approximately one mile west of the Ellensburg city limits thus offering a rural lifestyle while still being in close proximity to local shops and amenities. This development is geared to those individuals who wish to have adequate land for maintaining horses and other large animals for personal use or for those who wish to maintain large gardens and small agriculture activities. Ellensburg is recognized across the country for the Ellensburg Rodeo, which occurs every Labor Day weekend. Horses and other large animals continue to play a large part of daily life for many of the residents living in the Ellensburg area. The lots included with this proposed preliminary plat provide enough room for one to four horses for private use such as trail riding, reining, and 4H participation.

As for the description of lot sizes within this plat proposal, eight of the nine lots are approximately 5 acres in size. There is one 5.76-acre lot (See Exhibit #2).

The subject property is bordered by the following:

- To the west and north of the subject property exists **agricultural** ground, used for residential and agricultural purposes. This property is Agriculture 5 Zoning.
- To the east and south of the subject property exists **agricultural** ground, used for residential and agricultural purposes. This property is Agriculture 20 Zoning.

The following is a review of the Kittitas County Code Section 17.28A “A-5” and responses as to how this preliminary plat meets all of the criteria within the A-5 zone:

12. Clubhouses, fraternities, and lodges.

Community clubs, fraternities, and lodges will not be allowed by the Covenants, Conditions, and Restrictions placed on the proposal by the applicant provided that a Conditional Use permit is obtained from the County.

In conclusion the subject proposal, by the responses above to each section of the code, is consistent and suitable for development within the A-5 zone and proves to be a benefit to the public health, safety and welfare.

This preliminary plat proposal encompasses a total of approximately 45.76 acres on one parcels located at 1601 Brown Road. This land currently is unused. In the past, this land was used for agricultural purposes. The property is served with West Side Irrigation with full irrigation rights that will provide each of the proposed lots with adequate irrigation.

Proposed water supply, storage and distribution system, sewage/disposal/treatment plan, solid waste collection plan.

Water:

The applicant is proposing a 9-lot plat. 2 each Group B water systems will be designed and approved by Kittitas County to serve the 9 lots. The new Group B water system will also be managed by an approved Satellite Management Agency in Kittitas County. Irrigation water will be supplied through the water rights associated with the West Side Irrigation Ditch Co.

Sewage:

This proposal will be served by individual septic system(s) depending on the soil conditions. A Licensed Septic Designer or a Professional Engineer will be required to design these septic system(s) and that responsibility will be that of the new owner. The individual septic system(s) will be approved by the Kittitas County Environmental Health Department.

Access:

This proposal will be accessed from a new private road constructed off of Brown Road. This private road will have a recorded easement that also contains road maintenance provisions.

Other Utilities:

- Puget Sound Energy will be providing power to this proposal.
- Telephone will be provided by the local carrier.
- The local Internet providers of this area can provide Internet service.

With regards to the environment this property will go through a SEPA review. As for Critical Areas this property has been reviewed for Critical Areas by Sewall Wetland Consulting. Please see **Exhibit #3** for more details.
