

Project Narrative

Repair and remodel the existing cabin on parcel 310134.

Drill a well on 310134 and install the septic drainfield on 150134.

There are currently no wells, septic, or drain fields on either parcel 150134, & 310134.

The purpose of parcel combination is to create a single tax parcel large enough to meet minimum land requirement for the well.

A PSA was completed on 06-08-2025. I do not believe that SEPA will be required for this project.
