Good Monday afternoon Maryn and Ellie,

Ellie, I met Maryn on-site last Friday, July 11, at her property located at 5035 FS 4832 Road, to evaluate her need for a Forest Practices Application (FPA) and associated SEPA checklist. I found that the road in to the site has already been constructed and all the trees necessary for building the dry cabin have already been removed, so there is no need for any additional forestry work. Maryn told me that she would contact me if the situation changes but, as of now, no FPA or SEPA Checklist is needed by DNR for the proposed construction of the dry cabin.

Please contact me if you have any questions or concerns regarding this email.

Sincerely,

**Marty Mauney**

External Email

Afternoon Marty,

Thank you again for coming out and checking out the property on Friday. We really appreciate how quickly you were able to schedule with us.

The Community Development office turned our PSA around extremely quickly so we are set to submit our building plans today once Fish and Wildlife emails about the stream. They were here today.

I hate to push but community development needs documentation from you that we don't need the SEPA or FPA permit.

Is there anyway you can get that sent to Ellie in Community Development today? Please also copy me on the email so I have it for my records. I've copied her on this email for your convenience.

Thank you again for your help.

Maryn
