Subject: SX-25-00011 McDonough - Shoreline Exemption

Good morning Jordan,

I was reviewing your comments for PSA-25-00186 and saw your request for more information.

The applicant is proposing two additions onto the existing SFR. One addition will be located lakeward and consist of enclosing the downstairs portion of an existing porch. No new ground disturbances are expected here. The applicant is aware that they cannot increase the square footage of the porch's footprint without a Shoreline Variance. The second addition is an expansion on the front side of the SFR, landward of the shoreline buffer. Ground disturbance activities are expected to occur here.
