**Subject:** Re: SV-23-00001 Horish - Notice of Application

**CAUTION:** This email originated from outside the Kittitas County network. Do not click links, open attachments, fulfill requests, or follow guidance unless you recognize the sender and have verified the content is safe.

This consult is in reference to Shoreline Variance Application SV-23-00001 *Horish*. This undertaking involves ground disturbance over nearly 30,000 sqft, which include the scraping for an unpaved driveway for parcel/residential access.

This undertaking is located within the CCT Usual and Accustom Territories. We request any undertakings, particularly those involving ground disturbing activities, to have an IDP in place prior to implementation.

The proposed project lies within the usual and accustom territory of the Moses Columbia and Wenatchi Tribes, 2 of the 12 constituent tribes of the Confederated Tribes of the Colville Reservation (CTCR), which is governed by the Colville Business Council (CBC). The CBC has delegated to the Tribal Historic Preservation Officer (THPO) the responsibility of representing the CTCR with regard to cultural resources management issues throughout the traditional territories of all of the constituent tribes under Resolution 1996-29. This area includes parts of eastern Washington, northeastern Oregon, the Palus territory in Idaho, and south-central British Columbia.

There are known cultural resources of precontact and historic significance nearby and this particular plat is considered Very High Risk for an inadvertent discovery according to the DAHP predictive model. This parcel has not been previously surveyed and a preliminary archaeological investigation would be prudent.

Please be advised that a documented Traditional Cultural Property (TCP) is located less than a mile from the proposed project. TCPs are places important to the CTCR for the preservation and continuation of the community's traditional lifestyle. TCPs can be, but are not limited to, religious areas, sacred areas, resource gathering areas (plant, animal, fish, and mineral), places associated with stories and legends, archaeological and ethnographic sites, habitation sites, camp sites, pictograph and petroglyph locations, special use sites, trails, and places with Indian names. For native people, natural resources are cultural resources. Traditional cultural plant resources are not only cherished for fiber, food, medicine, and building material, but are an intrinsic aspect of indigenous sovereignty; these plants link the people of the present to the people of the past.

CCT requests a cultural resource survey prior to the implementation of ground disturbing activities and that during implementation that there be an inadvertent discovery plan or (IDP) in place to ensure compliance with all Section 106 and relevant cultural resource laws both federally and to the state of Washington.

Thank you for consulting with the Colville Confederated Tribes History and Archaeology Program.

On behalf of Guy Moura, Tribal Historic Preservation Officer.

Sincerely,

Connor Armi | Archaeologist Senior MA, RPA

Good Morning,

CDS is requesting comment on the following shoreline variance application: SV-23-00001 Horish. Links to the file materials can be found below. The comment period will end **December 22, 2023, at 5pm**. CDS will assume your agency does not wish to provide comment if not received by this date. Please let me know if you have any issues accessing the materials.

**Internal Link:** [SV-23-00001 Horish](#)

**External Link:** [SV-23-00001 Horish](#)

If the links above do not work, please go to the CDS website at:

<https://www.co.kittitas.wa.us/cds/land-use/default.aspx> and navigate to “Shoreline Variance” and then the project file number “SV-23-00001 Horish”.
