Mr. Torrance-Smith:

The Department of Health (DOH) Office of Drinking Water (ODW) has reviewed the application, generating the following comments:

1. The applicant references the “McIntosh Well #1” water system (State DOH ODW ID #AD452) – this water system currently does not have capacity to serve additional connections: has 2 active and 2 approved.
2. To connect to the “McIntosh Well #1” water system, the applicant needs to complete the following:
  - Show “McIntosh Well #1” has sufficient capacity – DOH requires a Capacity Analysis to be completed by a Professional Engineer licensed in the State of Washington and submitted to DOH for review and subsequent approval.
  - Show that proposed connections are within the legal service area of the “McIntosh Well #1” water system – the only approach to gain an expanded service area is by completing a planning document that is submitted to DOH for review and subsequent approval.
3. DOH would prefer expanding the “McIntosh Well #1” water system, instead of forming additional water systems. DOH can work with the applicant to streamline this process.

If anyone has any questions or concerns, please contact DOH, thanks,

**Russell E. Mau, PhD, PE**
