RE: SE-25-00010, Lightcurve
SR 10 milepost 100.10 crossing

We have reviewed the proposed project and have the following comment.

The proposed aerial fiber optic line crosses State Route 10 (SR 10), a Class 3 managed access highway with a posted speed limit of 55 miles per hour. Any utility that crosses WSDOT right-of-way requires a crossing permit. The proponent is required to contact the South Central Region Utilities Engineer, Jason Harris, to coordinate this work and obtain the necessary permit(s). He can be reached at (509) 577-1785.

Thank you for the opportunity to review and comment on this proposal. If you have any questions regarding this letter, please contact Jacob Prilucik at (509) 577-1635.

Sincerely,

Stephen P. (Phil) Nugent
Region Planning Manager

The project, SE-25-00010 Lightcurve, Lies within the Ceded lands/ Usual & Accustomed Area of the Confederated Tribes and Bands of the Yakama Nation. The project review didn't yield any new information that would require further investigation of the potential impacts on Archaeological/Cultural Resources.

Hello,

This review is in response to the SE-25-00010 Lightcurve proposal to add fiber optic cables over the Yakima River to existing utility poles with no ground disturbance. The Confederated Tribes of the Colville Reservation have no concerns with the proposed undertaking.

Thank you,

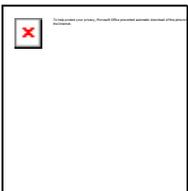

Jordan Bovee | Archaeologist 2
