Good morning,

I'm the planner you spoke with earlier this week about your variance project, as well as the planner who's been assigned to that project. I'm reaching out to you before beginning to process your variance because, if you'd like, we can modify your request to increase the "building envelope" of your project from 100'x100' up to 100'x120'. This could be included in the variance request at no additional cost to you and will give your project some more room to work with.

Let me know if you'd like to do this and if you have any further questions.

Thank you,
