Subject: Yakima River Campground

Traci.

Lindsey did receive your emails last week regarding the Yakima River Conditional Use Permit application package CU-15-00002 and is grateful for your comments. All correspondence received has been included in the record for staff and commissioner review. As you are aware, we are in the 30-day comment window phase of the project review process. This is a time for staff to receive any and all comments any individual, group or agency would like to provide. This aides staff during the review and recommendation phase of the process leading up to the public hearing before our Hearing Examiner.

This 30-day comment period is not an opportunity for staff to respond to questions or hypothetical situations for the proposed project as you have requested. As stated above, all correspondence has and/or will be included in the project record and be considered. As you are aware you may continue to provide additional written comments until the end of the comment period, which ends on March 4, 2016 at 5:00 pm. As you are also aware, additional comments can be submitted in writing to the hearing examiner prior to the public hearing, and/or may be provided in person to the hearing examiner during the public hearing that has yet to be scheduled.

As someone who has submitted comments on this project you will be added to the contact list for all future county notices regarding the project in question. Thank you.

Robert "Doc" Hansen
