Subject: Kittitas County Community Development Services

CAUTION: This email originated from outside the Kittitas County network. Do not click links, open attachments, fulfill requests, or follow guidance unless you recognize the sender and have verified the content is safe.

The proposed expansion of the Rye Grass Landfill is in dire need of an extensive update to the original SEPA and all prior due diligence. The potable water and subsequent water permit issues in Kittitas county has been an ongoing concern for the past 14 years (perhaps longer) and the impact this expansion may have needs more thought. There are many other sites in the county that may be a better selection for an expanded landfill - not on top of basalt. I strongly urge that the County Community Development Services team provide a more comprehensive investigation before moving forward with this expansion.

Sincerely,

Mark A. Spisak
Concerned Land Owner
