 - US Dept. of Defense
 - US Forest Service
 - WDFW
 - State Parks
 - County Boundary

WETLAND DATA SOURCES:
 This map depicts the approximate location and extent of wetlands. The actual location and extent of wetlands require field confirmation and a site-specific evaluation to delineate the wetland boundaries. Additional wetlands may be present that are not shown on the map and some of the areas shown as wetland may not meet the wetland criteria. The map includes information from a number of data sources. The majority of the polygons come from the National Wetlands Inventory which was digitized off of 1981 using 1:58,000 scale aerial photos. Other wetland polygons came from 2009 GAP Land Cover analysis and 2006 NOAA CCAP land cover analysis. Both of these data sources used remote sensing methods to determine land cover types. The extent for the NOAA CCAP layer does not cover the full extent of the County.

Coordinate System: State Plane NAD1983 (F1)
 Washington South FIPS 4602
