September 1, 2012

<sup>1</sup>Kittitas County and the Cities of Ellensburg, Cle Elum, and the Town of South Cle Elum are participating in a multi-year process to develop a regional Shoreline Master Program (SMP).

<sup>2</sup>In conjunction with the regional SMP update process, Kittitas County has initiated an update to its Critical Areas Ordinance (CAO). Kittitas County is required by State law to update its 1994 CAO (Title 17A) and its 1975 Shoreline Master Program (SMP). The CAO update and SMP update will use many of the same resources and information; therefore the County is undertaking the processes at the same time.

<sup>3</sup>One of the first steps for the update processes is formation of a Technical Advisory Committee (TAC). The purpose of the TAC is to help focus technical discussions and identify key technical and policy issues associated with the SMP and CAO update processes. A Citizen Advisory Committee (CAC) will be established in approximately September 2012, to finalize recommendations on shoreline environment designations and goals, policies and use regulations and critical area policies and regulations.
