

PH-DEPT-002 Fee Schedule Policy

I. Purpose

It is the purpose of this policy to clarify the authority of the Kittitas County Board of Health (BOH) to establish current fees for services provided by the Kittitas County Public Health Department (KCPHD), to provide guidelines for the determination of fees, and to establish service cost calculation, billing, and refund policies.

II. Policy

- A. Board of Health: “Each local board of health shall have supervision over all matters pertaining to the preservation of the life and health of the people within its jurisdiction and shall: Establish fee schedules for issuing or renewing licenses or permits or for such other services as are authorized by the law and the rules of the state board of health; provided that such fees for services shall not exceed the actual cost of providing any such services.” (Revised Code of Washington 70.05.060.)
- B. Fee Schedule Development: The fee schedules shall be developed to allow KCPHD to recover its direct and indirect costs. KCPHD shall not operate on a for-profit basis, but shall seek not to operate at a loss. However, if a service primarily benefits the population by protecting them from health problems or hazards, the cost recovery rate may be lower (e.g. childhood immunizations, travel immunization consultations). The Kittitas County BOH will have the primary decision-making authority and responsibility for subsidizing service fees at less than full cost recovery, except when grant funding is specified to support a service. Fees for services that benefit an individual or small class of individuals only, with no benefit to all the residents of Kittitas County, cannot be developed at less than full cost recovery or subsidized.
- C. Public Input: Public input in the form of a public hearing process shall be sought prior to completion of the draft fee schedule. Appropriate stakeholders shall be notified about the public hearing. Stakeholder lists are determined for each fee for service category, and these lists will be reviewed on an annual basis. KCPHD encourages stakeholders or any interested parties to sign up to receive online notifications at: <https://www.co.kittitas.wa.us/opt/default.aspx>. Public notification of changes shall also be completed after the updated fees are adopted.
- D. Frequency of Review: Fee schedules shall be updated and presented to the Kittitas County Board of Health for review and approval on an annual basis, at a minimum.
- E. Service Cost Calculation: Prior to setting the fee, the service shall be clearly defined, using standard definitions of practice when they exist. The actual cost of the service,

including indirect costs, shall be calculated using the designated county fee development model.

F. Clinic Services: The Kittitas County Public Health Department discontinued clinic services in 2020. However, should the need for these services arise in Kittitas County, based upon emerging disease transmission or the unavailability/inaccessibility for certain clinical services in the County, the following shall apply:

1. Sliding Fee Scale: Individuals seeking some clinical services may apply for reduced fees based on a sliding fee scale. Individuals qualifying for no fee to be applied may be asked to pay \$10.00, however the service will be provided regardless. The sliding fee scale shall be based on 200 percent of the poverty guidelines as determined by the U.S. Department of Health and Human Services and shall be adjusted annually at a minimum but may be adjusted more frequently depending on when the guidelines are released. The following table indicates which fees can slide and which ones cannot.

Fees Eligible for Sliding Fee Scale	Fees NOT Eligible for Sliding Fee Scale
Vaccine Administration Fee (except for travel vaccines)	Vaccine Administration Fee for travel vaccines
Tuberculosis services	Travel Consultations
	Environmental Health
	Hourly rates
	Vital Records
	Lab and Shipping (external labs)
	Adult vaccines (private pay)

The scale shall be divided into four increments and correlate to a percentage of the federal poverty level as seen in the table below.

Sliding Fee Scale Formula	
Federal Poverty Level	Sliding Fee
0-133%	0%
133-155%%	25%
155-177%	50%
177-200%	75%
200%	100%

2. Inability to Pay: Individuals having indicated an inability to pay shall not be refused services that are considered important to prevent the spread of communicable diseases amongst the general public, such as tuberculin skin testing and the vaccine administration fee.
 3. Clinic services will be billed to contracted private or public insurance when possible and as indicated in the table in Attachment B. If services are billed, but not covered by health insurance the patient will be billed for the cost of the service.
- Vaccine Fees:

- a. The base price for all vaccines shall be the actual cost incurred by KCPHD plus a vaccine administration fee, which is no greater than the state maximum allowed vaccine administration charge for children’s vaccine. Adult vaccine costs will be updated each time vaccine is ordered and rounded to the nearest dollar. Children’s vaccine costs are determined by the Washington Vaccine Administration (WVA), shall not be rounded, and are updated at least annually (historically, the WVA updates the costs on July 1).
 - b. Clients shall pay for the complete series of Japanese Encephalitis and Rabies vaccines before the vaccine is ordered due to the infrequency of use and the high cost.
 - c. Pediatric vaccine is received from the State of Washington Childhood Vaccine Program and is administered following the Washington State Guidelines, except for injectable or oral typhoid, Japanese Encephalitis, Rabies vaccine, and yellow fever. Recommended child vaccines are provided by the state at no cost to KCPHD and KCPHD shall follow the rules of the state Childhood Vaccine Program and the federal Vaccines For Children Program.
 - d. Other vaccines received for free by KCPHD shall be provided without the vaccine fee, but shall include the vaccine administration fee, which can be placed on the sliding fee scale.
- G. Fee Collection: Fees for most services at KCPHD shall be collected at the time of service provision, application for services, or permit/license issuance, unless other billing arrangements have been made prior.
1. Payment shall be in the form of cash, credit card, money order, cashier check, or personal check for almost all services. Credit card transactions are charged a 3% fee. For Vital Records and Food Worker Cards, personal checks are not accepted, with the exception of business checks from organizations that have established a working relationship with and received pre-authorization from KCPHD. Money orders, cashier’s checks, and personal checks shall be made out to Kittitas County Public Health Department or KCPHD. Two-party checks shall not be accepted for payment.
 2. Checks returned for insufficient funds shall be assessed the Kittitas County insufficient fund fee and follow up actions shall follow Kittitas County Cash Handling Policy and Procedures.
- H. Subsidized Services: No fee shall be established for services which are funded by a local, state, or federal grant that provides for 100% reimbursement of Kittitas County Public Health Department costs.
- I. Late Payments:
1. If an Environmental Health annual operating permit or license is renewed after its expiration date but before one month has passed, a late fee of 20% shall be assessed. If the permit or license has not been renewed within one month of its

expiration date, a late fee of 40% of the annual fee shall be assessed. Operations shall be suspended if the permit or license renewal is delinquent beyond 35 days.

2. A concessionaire for a temporary food event shall submit a completed application at least two weeks prior to the first day of the event or a 40% late fee shall be assessed.
3. All other payments not received within 30 days of issuance by KCPHD may incur a 10% late fee, accruing an additional 10% on the unpaid balance every 30 days thereafter. If payment is not made within 120 days, the department may hold a permit until payment is made and/or attempt to recover payment through a collections agency.

J. Prorated Fees: If a new annual operating permit for permanent food (levels 2 or 3) or water recreation (pools) facility open year-round is applied for outside of the permitting year (November 1-October 31), the fee will be prorated approximately on a quarterly basis according to the table below.

February – April	75%
May – July	50%
August – October	25%
November – January	100%

K. Refunds: All refunds may be subject to the refund processing fee and/or a deduction for actual work performed by KCPHD prior to receiving the refund request. The cost of actual work performed shall be estimated using the established hourly rate.

L. Vital Records Fees: Vital records fees shall be consistent with RCW 70.58A.560, as seen in Attachment A, and is subject to change at any time by the state legislature. Any fee changes by the state legislature shall be adopted by KCPHD. Additional fees shall be charged for the re-processing of death certificates that are returned due to a correction reprint.

M. Off-Site Vaccine Clinics:

1. KCPHD will not bill insurance at off-site vaccine clinics.
2. When children’s vaccinations are provided at off-site clinics (i.e. school clinics), vaccines will be provided free of charge.
3. Vaccines will be provided for free at off-site clinics where the target audience is considered to be low-income such as the jail or at Community Connect Day. The vaccine administration fee will not be charged.

N. Asset Loaning:

1. KCPHD will allow trusted partners to borrow some assets. Borrowers will complete the appropriate lending agreement, which includes the cost of asset, return date, and associated late fee of \$25.00 per day, which will be collected upon return.
2. Assets not returned within 14 days of the due date will be considered lost and will result in charges equivalent to the cost of the asset.
3. Borrowable assets include KCPHD’s books, air monitors, and coalition materials.

III. Procedures

- A. Fee Model: The designated fee development model shall include all costs associated with delivering the service which best meets customer needs and protects the health of the public. These costs shall include specialist time, health officer time, technician time, assessment coordinator time, and other expenses such as supplies, services and charges, computer replacement, vehicle replacement, indirect expenses, software costs, and other relevant charges. The current fee schedule can be found in Attachment D.
- B. Division Hourly Rates: Overall division hourly rates are calculated by the fee model. This rate is for services or activities without an established fee or which require more hours than what is included in the current fee. KCPHD staff shall inform the customer of the need to charge a division hourly rate prior to providing the service. The current division hourly rates are in Attachment C.
- C. Rounding: The hourly division rates used for services without an established fee shall be rounded to the nearest \$5.00. Fee calculations shall also be rounded to the nearest \$5.00. Fees below \$10.00 shall be rounded to the nearest dollar.

IV. Applicability

- A. This policy applies to all fees charged directly by the Kittitas County Public Health Department or collected by another county department on behalf of KCPHD, and to all individuals who are concerned with establishing or collecting fees for services administered by the Kittitas County Public Health Department staff.
- B. This policy is effective on January 1, 2021.
- C. This policy is subject to review at least annually.

(6) A portion of the twenty-five dollar fee collected by the local registrars must be transmitted to the state treasurer on a monthly basis as follows:

- (a) Thirteen dollars for each birth certification and birth informational copy issued;
- (b) Thirteen dollars for each first copy of a death certification and death informational copy; and
- (c) Twenty dollars for each additional death certification and death informational copy.

(7) For each fee turned over to the state treasurer by the local registrars, the state treasurer shall:

- (a) Pay the department two dollars of each fee for birth certifications and birth informational copies and first copies of death certifications and death informational copies;
- (b) Pay the department nine dollars of each fee for additional death certifications and death informational copies; and
- (c) Hold eleven dollars of each fee in the death investigations account established under RCW [43.79.445](#), except for an heirloom birth certification issued under RCW [70.58A.530](#).

(8) Eleven dollars of the twenty-five dollar fee collected by the department for certifications and informational copies issued by the department must be transmitted to the state treasurer for the death investigations account established under RCW [43.79.445](#).

(9) The department of children, youth, and families shall set a fee for an heirloom birth certification established under RCW [70.58A.530](#) for the children's trust fund established under RCW [43.121.100](#). The department shall collect the fee established under this subsection when issuing an heirloom birth certification and transmit the fees collected to the state treasurer for credit to the children's trust fund.
