

## **New Waste Anti-Freeze Recycling Policy Effective** **March 30<sup>th</sup> 2026**

The used anti-freeze recycling program is funded in part by a Dept. of Ecology grant. Grant rules specify that funds are not allowed to be spent on waste generated by a business. As such, used anti-freeze can only be accepted from residents of Kittitas County. Businesses are **NOT ALLOWED** to use the used anti-freeze tank. Businesses can contact the main office at 509-962-7542 for proper disposal options. There is a daily limit of 20 gallons per household. The maximum container size allowed to pour out is 5 gallons. Customers are **NOT ALLOWED** to dump oil from containers larger than 5 gallons.

### **DUMPING ANTI-FREEZE FROM 55 GALLON DRUMS IS NOT ALLOWED.**

#### **Acceptable Fluids**

Used Anti-Freeze Only

#### **Unacceptable Fluids**

Used Oils

Brake Fluid

Solvents and Thinners

Fuels

Transformer Oil

Vegetable Oils and Animal Fats

The above lists are not intended to be all inclusive. If unsure of the fluid or if the fluid is on the unacceptable list, contact the HHW Coordinator at 509-962-7577 to set up an appointment for disposal.
